Delivered completely assembled and ready to use, the Microscope Charging Cart by Ken-A-Vision is designed for USB cordless charging Microscopes (works with all cordless Ken-A-Vision Microscopes). The multipurpose cart is designed for easy access for students and teachers. Oversized lockable castors allow for effortless movement. The Microscope Charging Cart by Ken-A-Vision is designed for just what you need. Store and charge 16 full size microscopes with 17" high clearance and 8" width.

The USB charging system is mounted on the outside of the cart and can charge any USB device (iPad; smart phones; android tablets) when connected. Simply plug the cart into any outlet for immediate power.
