

## Parallel Jaw Grip - Lock, HDPE Wire to 1.362-Inch

This parallel jaw grip was specifically designed to securely pull slippery HDPE-coated cable or tree wire. The innovative high-traction surface grips the cable without damaging the outer jacket. The tough carbide grit technology withstands even the harshest jobsite conditions. The grip is spring-loaded for one-handed operation and easy placement on the conductor.

### Specifications

<b>Type:</b>	Parallel Jaw Grip	<b>Application:</b>	Wire Pulling
<b>Special Features:</b>	High Traction Grip Surface, Lock	<b>Overall Length:</b>	13.05" (17.7 cm)
<b>Overall Height:</b>	8.5" (21.6 cm)	<b>Overall Width:</b>	6.975" (7 cm)
<b>Material:</b>	Forged Steel	<b>Cable Type:</b>	HDPE-Coated
<b>Cable Diameter:</b>	0.625" to 1.362" (15.9 to 34.6 mm)	<b>Hot Latch:</b>	Y
<b>Swing Latch:</b>	N	<b>Spring:</b>	Y
<b>Locking Handle:</b>	Y	<b>Jaw Type:</b>	Round
<b>Jaw Length:</b>	4.5" (11.4 cm)	<b>Maximum Safe Load:</b>	4000 lb (1,814 kg)
<b>Standard:</b>	OSHA	<b>Weight:</b>	5.10 lb (2.3 kg)
