

**KWIKBOOST EDGEPOWER®**

**KwikBoost EdgePower®  
On-Demand Charging**

Experience uninterrupted learning with an award-winning cordless charging system that brings flexible, on-demand power anywhere your students and teachers need it.

EdgePower's patented battery-operated design seamlessly integrates into any learning space - no need for costly infrastructure changes to power student devices both in the classroom and across your entire school. Choose from desk-mounted or fully portable charging stations.

**Scalable Design**

EdgePower's universal charging compatibility means you can scale as your school's power needs evolve - without requiring extensive electrical adaptations.

**Built to Last**

EdgePower's commercial-grade construction is designed to withstand daily use in your classrooms, providing years of dependable charging.

**Easy to Use**

With a hassle-free set up and conveniently swappable batteries, each EdgePower charging station is instantly useable for both teachers and students.

## Cord-Free Power Wherever You Need It

Available in clamp-on power stations that bring power to every student desk or in portable power stations that let students take power outlets on-the-go, EdgePower keeps devices charged and ready for wherever learning occurs.
