

## KWIKBOOST EDGEPOWER® BUNDLE OPTIONS

KwikBoost EdgePower™ is the cordless battery-powered charging station that supports today's mobile and flexible work environments. As the only product of its kind, the KwikBoost EdgePower® easily clamps onto desks, tables, and other everyday work surfaces. This innovative solution gives conference rooms, co-working spaces, libraries, classrooms, and more access to power wherever you need it.

KwikBoost EdgePower® is available in a variety of bundle options. Choose the bundle you need based on the number of users and how often each user may need supplemental power. If your needs increase in the future, it's easy to expand and scale your KwikBoost EdgePower® system with additional components.
