

## LC-400 - Brushed Aluminum Cable Well

The LC-400 is a stylish, multi purpose cable well at a very competitive price. This unit includes a power outlet and cables that will meet most users requirements. The brushed aluminum black surface is an attractive addition to any piece of furniture.

All of the cable connector holes have a protecting grommet to ensure the cable slides freely, allowing smooth travel to connect to your work surface device. By unscrewing the internal plate you can easily exchange any cable that is required for your customers special requirements.

### Standard Features:
