# IMPORTANT WARNINGS AND CAUTIONS!

**WARNING:** A WARNING alerts you to the possibility of serious injury or death if you do not follow the instructions.

**CAUTION:** A CAUTION alerts you to the possibility of damage or destruction of equipment if you do not follow the corresponding instructions.

#### DIMENSIONS

WARNING: Failure to read, thoroughly understand, and follow all instructions can result in serious personal injury, damage to equipment, or voiding of factory warranty! It is the installer's responsibility to make sure all components are properly assembled and installed using the instructions provided.

**WARNING:** Failure to provide adequate structural strength for this component can result in serious personal injury or damage to equipment! It is the installer's responsibility to make sure the structure to which this component is attached can support five times the combined weight of all equipment. Reinforce the structure as required before installing the component.

**WARNING:** Personal injury possible with excessively long column. Do NOT exceed column length of 24 inches!

**WARNING:** Exceeding the weight capacity can result in serious personal injury or damage to equipment! It is the installer's responsibility to make sure the combined weight of all components including the display/projector does not exceed 100 lbs (45.4 kg).

#### TOOLS REQUIRED FOR INSTALLATION

#### Assembly And Installation

#### For RPA Models Only

**WARNING:** Failure to provide adequate structural strength for this component can result in serious personal injury or damage to equipment. It is the installer's responsibility to make sure the structure to which this component is attached can support five times the combined weight of all equipment. Reinforce the structure as required before installing the component.

- 1. Set the base plate (B) on a flat stable work surface and adjust the feet as necessary.
- 2. Thread the 1-1/2" pipe section (C) into the base plate and tighten.

**WARNING:** Personal injury possible with excessively long column. Do NOT exceed column length of 24 inches!

- 3. Secure NPT pipe to base plate using one 5/16-18 x 3/8" set screw (I).
- Attach RPA to projector arm (A) using four 1/4-20 X 1-1/2" carriage bolts (H), four 1/4-20 acorn nuts (G) and 1/4" flat washers (L). (See Figure 1)

Figure 1

- Slide both projector arms (A) onto the 1-1/2" vertical pipe section (C) and secure using two 5/16-18 x 3/8" set screws (I) on each arm. (See Figure 2)
- 6. Thread 1-1/2" safety nut (F) onto threaded end of the 1-1/2" pipe section. (See Figure 2)
- 7. Mount projector hanging bracket to your projector (see RPA instructions).
- 8. Partially thread 10-24 thumbscrews onto 10-24 studs at top of hanger bracket plate. The quantity of thumbscrews may vary from three to six.

9. Align studs with key slots of RPA, slide RPA into place, and secure RPA by tightening thumbscrews.

Figure 2

10. Adjust projector for correct registration.

#### For RPM Models Only

- 1. Proceed with Steps 1-3 under For RPA Models Only.
- 2. Place RPM on its top so that four screw holes are visible through the square in the RPM base. (See Figure 3)
- Insert four 1/4"-20x1-1/2" (K) button head cap screws into the bottom of the RPM. (See Figure 3)
- **NOTE:** The RPM base is not shown in Figure 3 for clarity only. It should NOT be removed for this installation process.

Figure 3

- 4. Place four nylon spacers (M) onto the screws as shown in Figure 3.
- 5. Tighten the screws through the nylon spacers and into the two interface brackets (D). (See Figure 3)

6. Insert four 1/4"-20x1-1/4" (J) button head cap screws from the top of the projector arm. (See Figure 4)

- 7. Place a 1/4" flat washer (L) onto each screw.
- 8. Hold the RPM (with interface brackets attached) to the bottom of the projector arm and tighten the screws through the washers and into the interface brackets.
- 9. Proceed with Steps 5 10 from For RPA Models Only section
