LED-3000 RING LIGHT ESD

LED-3000 Ring Light maximizes light output and distribution while preventing harmful glare and reflections. The brilliant 40 LED display, with 50,000 hour lamp life and 6000-K color temperature, makes this ring light ideal for the inspection of surface cracks and defects as well as for general inspection. The self-contained on/off and dimming controls allow for dimming up to 15% output. The LED-3000 consumes 9-watts
