LanTEK **IV**

The Future of Cable Certification

The LanTEK IV is a Cable Certification system that brings a new standard to the industry, making the job faster, easier and more profitable.

LanTEK IV and AnyWARE Cloud have comprehensive on-board help systems which will guide you through how to use the LanTEK IV. These help systems can be accessed as follows;

Help on the LanTEK IV touchscreen handset:

Help Icon - this appears on the Menu Bar

Or click the Settings Icon and select Usage Guides:

Usage Guides >

Help on the AnyWARE Cloud: ? AnyWARE Help

AnyWARE Cloud assistance can be accessed by the multi-language AnyWARE Help tab located on the bottom right-hand side of the AnyWARE Cloud.

Quick Reference Guides:

The multi-language Quick Reference Guides for LanTEK IV, FiberTEK IV and MPTL testing are available to download from: www.idealnetworks.net/support/downloads. These files contains all the key details on how to set up your LanTEK IV and FiberTEK IV cable certification systems and also how to configure MPTL tests.
