The Secure Laptop Locker V2 has a unique storage tray that actually slides out of the cabinet, making it easy to remove mobile devices and put them back in. Whether you use laptops, tablets, or netbooks, wear and tear due to handling is greatly reduced since your device doesn't have to slide in and out of the laptop cabinet with every use. A secondary slide-out tray stores all the power cords to keep the cords out of the way. This laptop locker is constructed of 16-gauge steel and mobile computers inside are protected by a double-bolt lock to provide vault-like laptop security. Designed to be bolted to the floor and/or wall to provide the ultimate in laptop anti-theft security. Up to 3 units can be fastened together for expansion needs.

**Features and Benefits**

- A slide-out storage/recharging module with built-in cord management holds up to 8 laptops making laptops easy to retrieve and put back
- 3/8" mounting holes on top (4), bottom (4), and back (6), provide secure attachment to wall, floor, or worksurface (floor fasteners not provided)
- Velcro® tie-downs, and cord management drawer located under the laptop storage module help keep wires and cords organized
- Laptop module has rubber pad to protect laptops
- Double-bolt, keyed, locking front door provides security and easy-access
- Symmetrical door can be installed to be hinged from the left or right-side
- Includes one 8-outlet insured power strip with surge-protector and 8' cord standard
- Cord management grommets throughout unit keeps cords organized and allow easy cord passage
- Ventilated door and side panels help dissipate heat
- Side handles assist when positioning or relocation is necessary
- Lockers are stackable up to three high allowing additional laptop storage to be added as needed
- Optional worksurface provides a finished look and writing surface for single units
- Warranted to be free of all defects in materials and workmanship with a 10-year warranty

## ! CAUTION !

Note: The Secure Laptop Locker needs to be permanently and securely attached to a wall, desk, or floor to prevent tipping while the loaded laptop storage module is pulled out. 3/8" mounting holes located in the back panel are for stabilizing the unit(s) (up to 3 high only) and are 16" on-center to match most wall construction stud spacing. Be sure screws are anchored securely to studs or other solid portion of wall.

It is the customer's responsibility to use adequate fasteners for the specific worksurface and/or floor type the unit will be mounted to.

## ! WARNING !

THE SECURE LAPTOP LOCKER IS NOT INTENDED OR DESIGNED TO SOLELY BE HUNG ON A WALL. THE MOUNTING HOLES IN THE BACK PANEL ARE FOR STABILIZING PURPOSES ONLY WHEN A STACK OF (UP TO 3) LOCKERS IS BEING USED.

## ! CAUTION !

The Secure Laptop Locker can store up to 8 charging laptops. Some laptop computers may draw more than ½ amp when fully discharged. If more than 2 laptop lockers are being used to charge simultaneously, it may be necessary to connect the power cords to separate 15-amp electrical circuits to prevent an electrical overload which may trip a circuit breaker. Please consult the owner's manual of your specific laptop computer for further information.
