

mini-Ligno MD/C moisture meter

Description:

The mini-Ligno MD/C is a pin meter for measuring wood, with a moisture range sufficient for any craft type or industrial application with built in connectors for optional electrodes.

Wood Moisture Meter:

The mini-Ligno MD/C is a great choice as a compact, accurate meter. The meter comes with microprocessor technology to assure calibration accuracy and reliability. This meter also comes with a connector for addition of optional electrodes.

This meter is simple to use with great accuracy. The shape of the meter allows you to push behind the entire body to sink the tapered pins into the wood. This meter comes with two calibrations for different wood groups so there is no need to convert the MC. This is the meter of choice for many hobbyists, woodworkers and cabinetmakers.

Standard mini-Ligno MD/C :

- 1 mini-Ligno MD/C
- 1 carrying pouch with belt loop
- 1 wrist strap
- 1 9V battery
- 1 wood group chart
- 1 instruction manual
- 2 pr pins for 3/16" and 7/16" measuring depth
- 2 year warranty

Features:

- Bright LED display
- Ergonomic, durable, rugged design for easy operation
- Wide range for wood scale (6-25%)
- Built in corrections for 2 wood groups
- Automatic shut off
- Temperature stable circuitry with built-in calibration check for the meter
- Built in connector for optional electrode

Specifications:

Specifications for mini-Ligno:

Size: 5.5"L X 2.75"W X 1"H

Measurement Range: Wood: 6-25%

Resolution: 1 %

Calibrated for a wood temp of 70° F (20°C)

Warranty: 2 years (except batteries and pins)
