SPECTRUM 
INDUSTRIES INC. (800) 235 - 1262
(715) 723 - 6750

For a compact lectern with so many integration possibilities, the LINK Lectern™ adds a unique charm to the classroom. The LINK's shape and style are very exclusive, retaining a contemporary lectern character with a modern touch.

Looks aren't everything though – the LINK Lectern's performance is outstanding. It can be integrated for high-powered presentations, but is still small enough for the lecturer to easily step away and personally interact with students. And when you link technology with personal communication, a real connection with your audience is made.

Features

- ▲ **2 lectern sizes** to fit your specific needs
- ▲ **Front and rear rack rail** turn this compact, mobile lectern into an A/V powerhouse
- ▲ **Exclusive** shape and style present a contemporary lectern with a modern touch
- ▲ **Tremendous A/V capability** but still small enough to have one to one interaction with the students
- ▲ **Feature rich**, customer driven design delivers all of the standard requirements of a full size lectern in a compact size
