

The Loctek V9 provides a healthy alternative to sitting in the office.

V9 Desk Bike

The Office Common Area Reimagined

The V9 will be ready for you in your office common area. Bring your laptop, phone, or tablet and continue working on your emails or phone calls. Get the creative juices flowing —hold an impromptu meeting! Its amazing the ideas that will come up when you are moving your body and getting the blood flowing to your brain.

Introducing a cutting edge approach to wellness and productivity. The Loctek V9 Desk Bike adds movement to your day! Take a break from your normal workstation whenever you need a recharge.

Don't break a sweat! Just move your legs and get your blood circulating throughout your body. This will promote better comprehension as well as higher alertness and engagement. But the best part of the V9 is how healthy it will make you feel!

The Loctek V9 is also a great standing desk. Bring your laptop over and easily adjust the height and position of the desktop for an instant standing desk solution

Roll up to your height adjustable desk with a V9U and receive all the health benefits of movement at your full workstation. When you want to stand, just roll it to the side.
