Product Description Sheet

Dial-A-Seal Dispensing System

Part # 998400

North American Equipment, March 1999

PRODUCT DESCRIPTION

LOCTITE® Dial-A-Seal dispensing system is a touch actuated, all pneumatic applicator for dispensing high viscosity Loctite products onto threaded pipe fittings and nipples.

A turret head with a cavity for each size of pipe thread is attached to the output of an air actuated positive displacement pump. To dispense, the operator presses a fitting down into the correct cavity. The downward motion of the turret depresses a switch that actuates the piston pump causing a metered amount of product to be dispensed. When the fitting is removed, the pump will reset, ready for another cycle.

PRODUCT FEATURES

- A quick turn turret equipped with cavities for 1/16", 1/8", 1/4", 3/8", 1/2", 3/4" and 1" male pipe threads
- The Dial-A-Seal is fed directly from a 50 ml tube, 250 ml tube or a one liter bottle
- Up to 0.7 ml of product can be dispensed
- Rear located product adjustment knob
- Suggested settings for each diameter fitting is given in a table on the outside casing of the unit

Bench Space Requirements

Technical Data

Utilities: System requires filtered (40 micron) lubricated air, 60 psig minimum

Overall dimensions: 7.6" wide x 12.5" long. The overall height of the 50 ml tube version is 12". The one liter bottle version is 16.5"

Weight: 13 lbs.

Dial-A-Seal Dispensing System Includes:

- Empty 1 liter bottle
- Stand for holding 1 liter bottle, P/N 998431
- Necessary parts for adapting 1 liter bottle
- Operation manual

Recommended Spare Parts:

- Spare parts kit, P/N 998402
- Turret, P/N 998425
- Cap - 1 liter bottle, P/N 998426
- Tube adapter, P/N 983095
