

# VS-LC101 Firmware Upgrade Instruction

## 1 Device and Tool Preparation

1.1 Please prepare following devices and tools before FW upgrade.

VS-LC101	USB flash drive
	
Monitor	
	

## 2 Firmware Upgrade

2.1 Power off the VS-LC101

2.2 Put the FW file(rec\_fw.img) into the USB flash drive.

- Please put the “unzipped” file into USB flash drive.
- Put the FW files in the Root directory, not subdirectory.

2.3 Plug in the USB flash driver to the USB port in the front of VS-LC101.

2.4 Power on the VS-LC101.

2.5 VS-LC101 will detect the file and start upgrade automatically.

2.6 The LED on the power button will flash when FW upgrading.

2.7 The running bar will display on the screen.

2.8 After the FW upgrade, the unit will reboot.

2.9 Please reset the VS-LC101 to ensure the process is finished.

2.10 Hold the reset button for 15-20 seconds and the unit will reboot.
