### According to the CDC:

- "Practicing hand hygiene, which includes the use of alcohol-based hand rub (ABHR) or handwashing, is a simple yet effective way to prevent the spread of pathogens and infections..."\*
- "CDC recommends using ABHR with greater than 60% ethanol or 70% isopropanol..."\*
- "...using a hand sanitizer with at least 60% alcohol can help you avoid getting sick and spreading germs to others..."\*\*
