

MOBILE TABLET/CHROMEBOOK CHARGING STATION LLTM30-B-KP

Rear View

The LLTM30-B-KP charging cart is a modern tool for charging tablets and Chromebooks (not included), perfect for college campuses, schools, libraries, and anywhere in need of secure storage for IT equipment.

Features:

- Measures 24.5"W x 21.25"D x 37.5"H
- Meets ANSI/BIFMA standards
- Programmable Keypad lock, alternative to traditional keys
- Holds up to 30 tablets or Chromebooks (15 per shelf)
- Four durable 4" ball bearing casters, two with locking brakes, and long-lasting treads help the cart roll smoothly and quietly handle heavy loads.
- 11"H high clearance between top and middle shelves
- 15"D to hold a variety of devices
- Rubber-coated dividers spaced 1" apart to keep equipment organized and protected
- Includes two 15-outlet vertical electrical power strips
- Added interior clips for cord organization
- All steel construction and padded top surface

New keypad locking mechanism is an alternative to traditional keys.

Rear access door of the LLTM30-B open to the power strips.

Coated dividers and non skid casters
