

MOBILE COMPUTER CART WITH BATTERY-POWERED DEVICE CHARGER

PS3945-KBEP

MOBILE COMPUTER CART WITH BATTERY-POWERED DEVICE CHARGER

Imagine how much time can be saved if employees no longer have to shuttle between their desks and the warehouse, patient exam room, shipping dock, or sales floor.

By untethering computers and other devices from wall outlets, team members at medical clinics, factories, distribution centers, and retailers can take their desks where the work needs to take place.

Recognizing the value that mobile powered workstations can bring to organizations of all types, Luxor created the Mobile Computer Cart with Battery-Powered Device Charger. It takes our perennial bestseller - the Adjustable-Height Presentation Workstation - and combines it with the game-changing KwikBoost EdgePower® Desktop Charging Station. The result is a functional and compact rolling computer cart that will make your team measurably more productive.

And since it allows educators to roll their computer and materials from classroom to classroom, this product also makes an excellent teacher cart.

Part standing desk. Part portable charging station. Entirely useful.

Key Benefits:

- This computer cart on wheels empowers employees to roll their computers anywhere they need to work, regardless if an outlet is nearby
- Rolling computer carts also make great mobile lecterns in corporate environments and teacher rolling carts in schools
- A single EdgePower rechargeable power bank can charge a typical laptop up to two times, an average smartphone up to 14 times, and a standard Chromebook or tablet up to four times

Dimensions, Presentation Station:

- Overall: 24" W x 31" D x 39" to 45" H
- Top Shelf: 24" W x 18" D
- Middle Shelf: 24" W x 14" D
- Bottom Shelf: 18.75" L x 15.75" W

Mobile Computer Cart with Battery-Powered Device Charger

PS3945-KBEP

This highly functional solution lets people work wherever they need to, freeing them from the limitations of wall outlets. Provides hours of supplemental power to laptops and mobile devices.

Features, Presentation Workstation:

- This multipurpose workstation is ideal for use as a computer desk, presentation station, or lectern
- Built to last with a black powder coat painted steel frame and wood laminate work surfaces
- Rolling cart with four 3" casters, two with locking brakes
- Max weight capacity (stationary): 176 lbs.
 - Top shelf: 77 lbs.
 - Middle shelf: 77 lbs.
 - Bottom shelf: 22 lbs.
- Max weight capacity (mobile): 110 lbs.
 - Top shelf: 44 lbs.
 - Middle shelf: 44 lbs.
 - Bottom shelf: 22 lbs.
- Easy assembly

Features, Portable Power Station:

- Portable charging station system eliminates the need for extension cords and power strips, which are inconvenient, unsightly, and a potential trip hazard
- Offers a 100V-120V 100W AC outlet, USB-C PD charging port, and a USB-A charging port with Quick Charge 3.0 technology
- EdgePower Rechargeable Batteries are interchangeable to allow for extended use
- One-year limited warranty
