

STEEL CARTS

ADJUSTABLE HEIGHT STEEL AV CART WITH LOCKING CABINET AVJ42C

Luxor's bestselling multipurpose utility cart will securely store and transport your valuable electronic equipment from room to room. The steel construction and robotically welded shelves ensure long lasting durability in tough environments; additionally, the adjustable height features cater to any user with its top shelf ranging from 24" to 42". The spacious cabinet protects sensitive and costly equipment with reinforced locking doors, while textured mats and retaining lips keep the shelves' contents securely in place. Allow this multimedia cart to safeguard your equipment and simplify storage.
