

HOME STORAGE CART KUC-WH

The rooms that need storage always seem to have the least amount of space for furniture – the Home Storage Cart solves that problem. No matter what room needs additional storage, the three shelves conserve space and can store numerous items. Four rolling casters make the cart mobile while black, white, and turquoise colors give flexible styling options.

The three shelves can hold a wide range of items: fruit, spices, and cookbooks in the kitchen; coasters, remotes, and magazines in the living room; books, an alarm clock, and slippers in the bedroom. Pick the contents you need it to hold and easily eliminate clutter.

KD Packaging and easy assembly (under 10 minutes) keep costs low and customers happy with their new storage solution. The three-tiered cart simply and beautifully meets storage and space saving needs in the house, office, classroom, or anywhere else. Choose your favorite color and start simplifying life today.
