

MT-91 Wireless Interlinking Application for MA-505

MRM-70B 16-Channel UHF Diversity Receiver Module
MT-91 16-Channel UHF Interlinking Transmitter
(6A,6C,7A are MIPRO frequency bands)

*Add the MT-91 Wireless Interlinking Transmitter to wirelessly connect multiple MIPRO MA-505 wireless PA systems. Ideal for parade routes, farmers markets, athletic events or any venue requiring extended transmission range and expanded coverage without the mess of bulky speaker cables.
