MES-100 WebMote Bridge

Introduction

The MIPRO ACT-BUS interface allows for remote monitoring of ACT series receivers and can now be connected to the newly developed MIPRO MES-100 bridge server, providing remote monitoring and control using any internet browser.

The MIPRO MES-100 supports web-based monitoring and remote control for smartphones, tablets, PCs and laptops over a variety of operating systems, such as Windows, iOS, Android or Linux, etc. without the need for special software to remotely monitor and control all parameters. The MES-100 provides a solution for the incompatibility issues between the operating systems and monitoring software.

Specifications

- 1 × Ethernet 10/100Mbps RJ-45
- 4 × MIPRO ACT-BUS RJ-11
- 1 × 12V/ 4A DC-Input
- 4 × 12V/ 0.5A DC-Output
- Backlit 16×2 LCD
- Rotary control knob
- Automatic / Manual IP set up
- Lock function
- Standard Internet Protocol IEE-802.3
- Dimensions: EIA-standard half 19" ; 210 × 44 × 180 mm / 8.3 × 1.7 × 7.1 " (W × H × D)

WebMote Remote Control Interface
- Webpage Language: HTML5
