Commitment to Your Needs is What Has Driven Our Success

It started with a family in 1914. Catherine Marsh, a widow of eight years, mortgaged the family home that housed her nine children to help her son Alvin finance a business venture. Alvin and his brothers, along with some help from a gentleman named John Garber, organized a lumber company – the Marsh Lumber Company, Inc. in Dover, Ohio.

By 1920, the company was manufacturing native hardwoods, and the Marsh brothers purchased Garber's interests. Following World War I (in which three of the Marsh siblings served), the company experienced a period of rapid growth and purchased an abandoned lumberyard to manufacture wood products, which included cold air registers, flooring, car decking, interior trim and other machined lumber products.

Through the years, the company dropped and added divisions, changed names, and joined with other corporations. In 1958, the Marsh Chalkboard Division was started under Marsh Lumber Company, Inc. Then, in 1995 the name was changed to Marsh Industries, In. Now, almost 100 years later, Marsh Industries, Inc. is one of the largest manufacturers of visual display-board products in the United States.

SHIPPING INFORMATION

Marsh Industries, Inc. has invested more in research and development of our packaging and distribution strategies than any other competitor. Our M-Class Packaging System significantly reduces freight damages. Marsh's M-Class Packing System is lightweight, easy to handle, open and dispose of once you have assembled or installed your Marsh products. We invite you to compare our M-Class Packaging system with packaging from your current supplier.

With three convenient shipping locations, Marsh provides quicker turn around times, fewer damages, and pick-up for local dealers.

INTERACTIVE WHITEBOARDS

MARSH INTEGRO

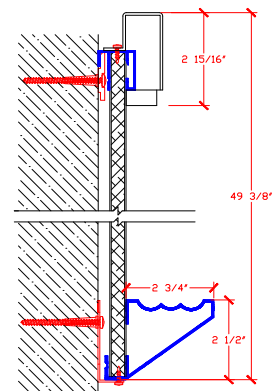

It's a traditional markerboard. And it's a state-of-the-art interactive whiteboard. The Marsh Integro™ powered by Mimio® is a truly innovative, seamless, one-piece solution that meets all your front-of-the-classroom lesson needs. The Integro offers seamless innovation up to 16' of uninterrupted writing space. The transition from a standard markerboard to an interactive whiteboard is as simple as flipping a switch. Add color and motion to any lesson plan and then save it for future use. Integro comes with a Mimio Mouse Interactive Stylus to offer drawing and point-and-click capabilities.

- Winner of a 2011 *Learning*® Magazine Teachers' Choice
- Durable aluminum trim and tray
- Powered by Mimio®
- Instant access to images, design templates, multimedia, lesson plans and more
- Supports industry-standard file formats for easy file sharing

- 1" aluminum trim face
- 1/4" MDF with Mylar backer
- Magnetic porcelain enameled steel surface
- Factory-drilled, counter-sunk holes with Marsh's exclusive "Crush-Guard" grommets prevent drawing installation screws through the trim when excessive torque is inadvertently used

Specify height up to 48-3/8"

Shipping 

All Retro-Fit boards are built to order and non-returnable.

Innovative board design that offers a perfect solution to existing board replacement or adhering skins.

Installation

First, prepare the surface of the existing board by thoroughly cleaning it of dirt, dust or grease. Apply construction adhesive to the back of the board in golf-ball size amounts every 16" in height and every 24" in length.

Position the new board carefully over existing board and press firmly in the locations of the adhesive.

Install the self-tapping screws (supplied with the board) through the pre-drilled holes in the trim. Clean the board thoroughly before using. See *markerboard care and maintenance instructions*.

FINISHES AND COLORS *Optional finishes and colors may require modified shipping schedules and costs. See page 21 for color options.*

SKU CONFIGURATION FORMULA

This formula calculates the exact SKU item numbers for Pro-Rite® Porcelain Steel Markerboards or Marsh Tackboards. The SKU configuration formula is designed to **ONLY** be used with Pro-Rite® Porcelain Steel Markerboards or Marsh Tackboards.

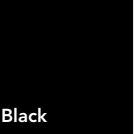

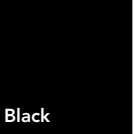

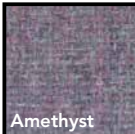

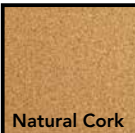

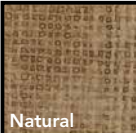

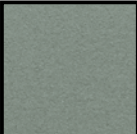

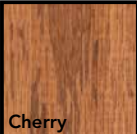

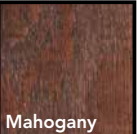

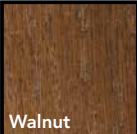

Example 1

- PR = Pro-Rite® porcelain steel writing surface
- 4 = Unit Height
- 08 = Unit Width
- 1 = L-Clip board installation (1 - L-Clip, 3 - Hanger Bar)
- 2 = Trim Series (ie. 1 - Astron, 2 - Thin Line)
- 6 = Tray Type (ie. 0 - no tray, 6 - shelf, 3 box with end caps)
- 1 = Map Rail (ie. 0 - no map rail, 1 - 1", 2 - 2")
- 6100 = Color code (White Markerboard). See chart below

Example 2

- AF = Vinyl Fabric Tackboard
- 4 = Unit Height
- 06 = Unit Width
- 3 = Hanger Bar installation (1 - L-Clip, 3 - Hanger Bar)
- 6 = Trim Series (ie. 1 - Astron, 2 - Thin Line)
- 0 = Tray Type (ie. 0 - no tray, 6 - shelf, 3 box with end caps)
- 0 = Map Rail (ie. 0 - no map rail, 1 - 1", 2 - 2")
- 0015 = Color code (Blue Sky). See chart below

POLY-RITE® CARE AND MAINTENANCE

BEFORE USING WRITING SURFACE:

Clean Poly-Rite® surface thoroughly with a non-abrasive household cleaner, such as a glass cleaner. Once cleaned, completely rinse the surface with clean water. This will rinse any residue left behind by the cleaning agent. Dry with a clean, soft cloth.

IMPORTANT MAINTENANCE:

Markers:

Use EXPO® dry erase markers for optimal results.

Erasing:

Remove dry erase markings with a marker towel for longer lasting surface effectiveness. Press firmly when erasing, using a circular motion. Change towels when they become dirty. Dirty towels will leave ink residue on the surface.

Daily Cleaning:

For daily cleaning, rinse the Poly-Rite® surface with water. This may be done with a soft cloth or sponge. Dry the surface with a clean soft cloth.

Ghosting:

If using low odor dry erase markers, additional cleaning with water and a soft cloth may be required. If ghosting (any faint remnant of marker left on the surface after dry erasing) occurs, wipe the board with a soft cloth dampened with water.

Hard-to-Remove Marker:

If cleaning Poly-Rite® with a clean soft cloth and water will not remove marks, use Marsh Mar-Kleen® dry erase, spray cleaner. Once the material is clean, rinse the surface with water and dry with a soft cloth.

Stubborn Stains:

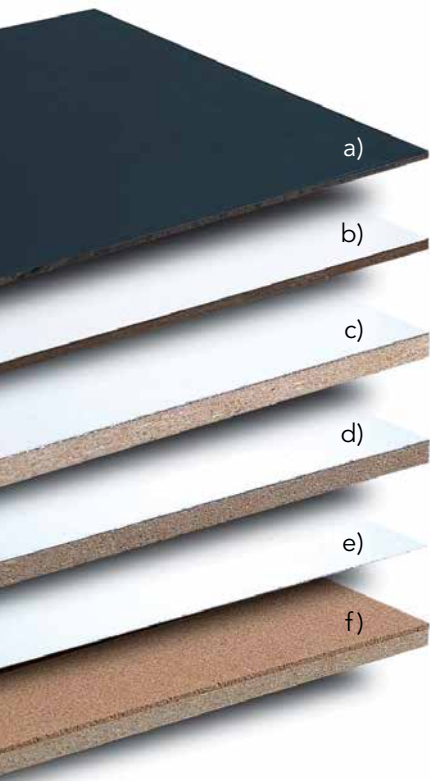

For stubborn stains, you may use a paint/stain remover such as Goof Off®. Apply to a soft cloth, blot and/or rub gently over the stained area. After the stain has been removed, rinse with clean water and dry with a soft cloth. Follow paint/stain remover manufacturer's precautions before using.

CAUTION:

Do NOT use ball point pens or other sharp, pointed instruments on the dry erase surface
Do NOT use abrasive cleaners on the dry erase surface.

SHEET MATERIALS

- a) 1/4" standard composition chalkboard, 2-coat painted 1/4" hardboard. Available in green or black.
- b) 1/4" Remarkaboard painted surface on MDF with a UV top coating writing surface. Available in white.

Tradition. Excellence. Innovation.
since 1914

2005 - Present

Our current headquarters and primary distribution center opened in 2005 and added a second distribution center in Phoenix, AZ. In 2008 we expanded the distribution warehouse and opened another distribution center in Memphis, TN.

1997 - 2005

After we out grew our offices on River Street in 1997 we relocated to New Philadelphia, Ohio. Our Visual Products plant was located on Bowers Avenue.

1962 - 1997

The original Chalkboard Plant on River Street in Dover, Ohio served as our home for over 30 years.

New Philadelphia, OH 44663-5100
