## 53010-AUT AUTOMOTIVE NITROGEN PRESSURE REGULATOR

### SPECIFICATIONS:

- 1/4" FL-M flare outlet port, with control valve, to keep pressure on the regulator at all times
- T-Handle for ease of pressure adjustment
- 63 mm (2 1/2") gauges with guards
- High pressure gauge 4400 psig (300 bar)
- Low pressure gauge 1000 psig (70 bar)

Mastercool's automotive nitrogen regulator is specifically designed to meet the specifications of automotive A/C systems. This single stage nitrogen regulator is used to test systems for leaks when they do not contain refrigerant.

Kits come with nitrogen pressure regulator (CGA580 US standard) (53001), 38" yellow charging hose (47382), leak testing adapter (53042), high side R134a 1/4" FL-M x 16mm economy coupler (66434-R) packaged in a blow molded case (53000-PB)
