

## MAVOMAX RK1 / 60

### PRODUCT SUMMARY

Part No.: M517G / M518G

### DESCRIPTION

The MAVO-MAX monitors the intensity of the ambient light according to IEC 61223-2-5. The MAVO-MAX fully meets the needs in all medical applications where constant illuminance for diagnostic monitors and viewing systems is required.

### FEATURES

- Monitoring range 20 to 60 Lux
- Powered with AC adapter or while connected to a USB socket of a computer
- Continuous operation

### APPLICATIONS

The MAVO-MAX meets the needs of medical applications where constant illuminance is required for diagnostic monitors and viewing systems. A green LED on the MAVO-MAX will indicate that the value of ambient light is in the range of 20 – 60 Lux. If the ambient light is outside of this range, a red LED will come on. Simply connect the cable of the MAVO-MAX to the power plug, and attach the MAVO-MAX to the top of your display monitor.

## INCLUDES

- MavoMax
- AC adapter, 90 to 240V, 50/60Hz
- USB cable
- Operating instructions
