

# Humidity Chamber HCP105

Active humidity control creates a controlled environment for accelerated life tests and 85/85 tests.

On this page, you can find all the essential technical data on the Memmert humidity chamber HCP. Our customer relations team will be pleased to help if you want further information. If you should require a customised special solution, please contact our technical specialists at myAtmoSAFE@memmert.com.

Temperature	
Working-temperature range	7 °C above ambient temperature up to +90 °C
Setting temperature range	+18 to +90 °C
Setting accuracy temperature	0.1 °C
Temperature	2 Pt100 sensors DIN Class A in 4-wire-circuit for mutual monitoring, taking over functions in case of an error
Humidity	
Humidity Control	Active microprocessor control for humidifying and dehumidifying (20 - 95 % rh), incl. digital indication and auto-diagnostic system ensures even more rapid reaching of set humidity and very short recovery times. Humidity supply with distilled water (from an external tank) by a self-priming pump; integral bacteria block by generating hotsteam, dehumidifying via sterile filter
Setting range active humidity control	20 to 95 % rh and rh-Off
Setting accuracy humidity	0.5 % rh
Control technology	
ControlCOCKPIT	TwinDISPLAY. Adaptive multifunctional digital PID-microprocessor controller with 2 high-definition TFT-colour displays.
Language setting	German, English, Spanish, French, Polish, Czech, Hungarian
adjustable parameters	temperature (Celsius or Fahrenheit), relative humidity, programme time, time zones, summertime/wintertime
Timer	Digital backwards counter with target time setting, adjustable from 1 minute to 99 days
Function SetpointWAIT	the process time does not start until the set temperature is reached
Calibration	three freely selectable values each, temperature and humidity
Communication	
Interface	Ethernet LAN, USB
Documentation	programme stored in case of power failure
Programming	AtmoCONTROL software on a USB stick for programming, managing and transferring programmes via Ethernet interface or USB port
Safety	
AutoSAFETY	additionally integrated over- and undertemperature monitor "ASF", automatically following the setpoint value at a preset tolerance range, alarm in case of over- or undertemperature, heating is switched off in case of overtemperature
Autodiagnostic system	integral fault diagnostics for temperature and humidity control
Alarm	visual and acoustic

# **Heating concept**

6 sides	large-area multi-function heating system on four sides with additional door and back heating to avoid
	condensation

# Standard equipment

Works calibration certificate	Works calibration certificate (measuring point chamber centre) at 60 °C with 75 % rh
Entry port	Entry port (silicone), 40 mm clear diameter, for introducing connections, moisture tight, can be closed by silicone stopper, at the back, centre left
Door	Additional heated inner glass door
Door	fully insulated stainless steel door with 2-point locking (compression door lock)
Internals	2 perforated stainless steel shelf/shelves

#### Stainless steel interior

Dimensions	$W_{(A)} \times h_{(B)} \times d_{(C)}$ : 560 x 480 x 400 mm (d less 35 mm for fan)
Interior	WSt. 1.4301 (ASTM 304)
Volume	107
Max. number of internals	6
Max. loading of chamber	90 kg
Max. loading per internal	15 kg

# Textured stainless steel casing

Dimensions	$w_{(D)} \times h_{(E)} \times d_{(F)}$ : 719 x 850 x 591 mm (d +56mm door handle)	
------------	--	--

## **Electrical data**

Voltage	230 V, 50/60 Hz
Electrical load	approx. 1720 W
Voltage	115 V, 50/60 Hz
Electrical load	approx. 1720 W

#### **Ambient conditions**

Ambient temperature	10 °C to 30 °C
Set Up	The distance between the wall and the rear of the appliance must be at least 15 cm. The clearance from the ceiling must not be less than 20 cm and the side clearance from walls or nearby appliances must not be less than 5 cm.
Humidity rh	max. 70 %, non-condensing
Altitude of installation	max. 2,000 m above sea level
Overvoltage category	II.
Pollution degree	2

#### Packing/shipping data

Transport information	The appliances must be transported upright
Customs tariff number	8419 8998
Country of origin	Federal Republic of Germany
WEEE-RegNo.	DE 66812464
Dimensions approx incl. carton	w x h x d: 800 x 1030 x 800 mm
Net weight	approx. 75 kg
Gross weight carton	approx. 100 kg

#### **Temperature Humidity Working Range HCP**

Not all climate chambers are the same. The humidity content of the chamber load, the ambient conditions and the respective temperature-humidity working range are decisive factors in the selection of the right appliance. In the adjacent diagram, you can see the possible temperature/humidity combinations for our humidity chambers HCP. Within the respective temperature-humidity range, permanent operation is possible (at an ambient temperature of 22 °C  $\pm$  3 K, relative humidity < 50 %). Condensation may occur in the threshold range. To which extent depends on the humidity content of the chamber load and the ambient conditions.

Temperature-humidity working range HCP

### Standard units are safety-approved and bear the test marks
