MetroMax i™ I.V. TRANSPORT/STORAGE SYSTEM

The Perfect Solution for:

Exchange System
Par Level Storage
Bulk Storage in Central Supply
Pharmacy Admixture
E.R., I.C.U., and O.R. Storage

- **Comprehensive System:** Six models of carts are constructed from a combination of state-of-the-art polymer components and epoxy-coated open-wire baskets and dividers.
- **Easily Accessible:** Baskets have semi-open front for easy access. Baskets fit level on frame for bulk storage or at a 10° angle for stock rotation. Dividers adjust horizontally within the basket to accept various sizes of I.V. bags.
- **Organized/Identifiable:** Dedicate an entire basket or a basket section by I.V. bag content or size. Continuous label holders identify baskets contents. Open-wire construction promotes quick visual inventory.
- **Corrosion Resistant:** The I.V. Transport/Storage System superstructure is rust and corrosion proof.
- **Strong and Durable:** Reinforced polymers give the cart's superstructure incredible strength, which enhances rigidity and eliminates swaying found in other I.V. storage and transport systems.
- **Easily Maneuverable:** 5" (127mm) casters, two with brakes, roll easily over thresholds and around corners.
- **Improved Infection Control:** MetroMax i™ helps improve infection control with a cleaner design that includes corrosion proof polymer materials, smooth rounded corners to allow for easy cleaning and *Microban® Antimicrobial Product Protection that keeps the cart cleaner between cleanings.

MXIV4

MXIV1

Metro incorporates several elements in its product design to support a facility's infection control processes:

- Microban® antimicrobial protection helps keep products "cleaner between cleanings"
- Advanced polymer and other proprietary finishes provide corrosion resistance
- Smooth rounded corners to allow for easier cleaning

Look for the "red check" symbol for this added protection

*Microban® antimicrobial product protection helps keep surfaces "cleaner between cleanings" by inhibiting the growth of bacteria, mold and mildew that cause odors and stains on the shelf surface.

*MICROBAN® and the MICROBAN® symbol are registered trademarks of the Microban Products Company, Huntersville, NC.
