Note: A typical unit will incorporate 4 qwikSLOT posts, at least 2 Super Erecta shelves (one at the top and bottom of unit) and as many qwikSLOT shelves as desired between the top and bottom shelf. A three sided frame is recommended for increased rigidity.

Note: A qwikSLOT shelf is rated at 300 lbs. (135kg) per shelf. A typical qwikSLOT unit is rated at 800 lbs. (375kg) capacity per unit. For higher unit capacities, an intermediate standard Super Erecta shelf must be installed approximately at mid-height on the unit.

Note: Mobile Applications: All mobile applications require an intermediate standard Super Erecta shelf, installed approximately at mid-height on the unit. Mobile posts come without leveling bolt assembly to accommodate stem casters. The qwikSLOT lock clip (9985QSL) is recommended for mobile applications.
