Job _____

BASIX PLUS™ COMPACT

Efficient storage plus lighter, cleaner, easier

Basix Plus Compact is constructed from a combination of materials to endure the rigors of a daily routine while providing a safe, ergonomic and flexible work area for the user. The cabinet is made of steel to provide a solid structure. The drawers are made from aluminum to reduce the overall weight of the cart. The polymer base reduces overall weight and provides impact protection to the cart and surrounding environment.

- **Compact** — This cart is ideal for close quarters. The cart provides a compact footprint of 22½" x 24" (572 x 610mm).
- **Lighter** — Basix Plus Compact carts are made lighter than typical all-steel carts by utilizing aluminum drawers and polymer components such as the polymer base, cart top and corner extrusions.
- **Cleaner** — Polymer corner extrusions provide accessory attachment channels that are accessible for cleaning. The cart's steel shell is not compromised by pre-drilled holes.
- **Easier** — Lighter weight carts are easier to push, and reduce back strain. Accessible accessory channels are easier to clean. Accessory attachment panel provides flexibility for easier accessory positioning.
- **Safe** — The base allows the casters to be mounted outboard of the cabinet providing an anti-tip mechanism. The polymer base doubles as the cart's bumper.
- **Ergonomic** — Push handles are molded into the polymer cart top providing a natural position to either push or pull the cart. Cart top has a contoured front lip to provide a comfortable work space.
- **Flexible** — User defined configurations can be accommodated by filling an empty cart shell with desired drawer heights. Choose from 3", 6", and 9" (76, 152, and 229mm) drawer heights.
- **Accessible** — Full-extension drawers and a full array of accessories put equipment and supplies where needed for convenient access.

BASIX PLUS™ COMPACT

Specifications

Cart Body:	Double wall construction Inner wall: 22 gauge (.030"/.8mm) steel Outer wall: 20 gauge (.036"/.9mm) steel Finish: Powder coated
Base:	Blow-molded, high-density polyethylene Steel reinforced caster channels Caster mounts located outside of cart body footprint to provide counterbalance to full-extension drawers
Corner Extrusions:	3 channel PVC .125 (3mm) wall thickness
Work Surface:	.125" (3mm) ABS 19 ¹ / ₂ " x 20 ¹ / ₂ " (495 x 521mm) Molded in handgrip Raised on three sides 1 ⁵ / ₈ " (41mm) Front lip 1 ¹ / ₂ " (13mm) H. Usable work space: 16 ¹ / ₄ " x 17" (413 x 432mm) Molded in pencil holder, pill/paper clip holders
Casters:	5" (127mm) diameter with polyurethane tread 2 swivel-brake, 2 swivel-lock (converts from swivel to rigid) 200 lbs. (90kg) per caster 600 lbs. (270kg) per cart
Drawers:	50 lbs. (23kg) load rating per drawer
Body:	.032" (.8mm) coated aluminum Finish: Powder coated
Fronts:	.032" (.8mm) coated aluminum Finish: Powder coated
Pull:	Polymer
Slides:	Zinc-Plated Steel Load Rating: 100 lbs. (45kg)/set
Lock:	Bright Nickel Type 3 G Cam. 7 ⁷ / ₈ " (22mm) Cylinder 2 Keys Coded on lock and keys
