SmartWall – Starter Kits and Accessory Kits for Task Stations

Organized, efficient wall space at work.

A unique storage and work station system for often underutilized space – empty walls. SmartWall and its system of integrated wall tracks offer the flexibility to add wall shelving and wall mounted task stations where needed throughout a facility. The use of the system around and above sinks, work tables, and equipment will keep these areas cleaner and more organized. SmartWall can become an integral part of everyday operating processes to improve efficiencies and ultimately the return on investment (ROI).

Keep prep areas organized and clean to promote a safer work environment and greater efficiencies.

Safely air dry and organize containers, cutting boards, trays, and utensils.

SmartWall promotes food safety.

Task station (medium duty) configuration with accessories for a prep / wash sink.

Task station (standard duty) configuration with accessories for a food prep area.
