General information	Contact with liquid form may cause frostbite. Never give anything by mouth to an unconscious person. Do not induce vomiting. Place unconscious person on their side in the recovery position and ensure breathing can take place. If breathing stops, provide artificial respiration. Keep out of the reach of children.	
Inhalation	Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing. When breathing is difficult, properly trained personnel may assist affected person by administering oxygen.	
Ingestion	Do not induce vomiting. Rinse mouth thoroughly with water. Give plenty of water to drink. Consult a physician for specific advice.	
Skin Contact	Contact with liquid form may cause frostbite. Remove contaminated clothing and rinse skin thoroughly with water.	

Eye contact	Remove any contact lenses and open eyelids wide apart. Continue to rinse for at least 15 minutes. Consult a physician for specific advice.	
Most important symptoms and	l effects, both acute and delayed	
General information	Contact with liquid form may cause frostbite. The severity of the symptoms described will vary dependent on the concentration and the length of exposure.
