

## MA-303 Personal Wireless PA System

Model Shown: MA-303du

### Ultra Light, Ultra Compact, Ultra Portable

Don't be misled by the compact, A4 size of this portable, personal sound system. Lightweight, robust and battery operated, it can be carried via the built-in handle, onto any flat surface or mounted on a microphone stand for all situations where you need to raise the volume of your voice to communicate with small to medium audiences.

### Industry's Easiest and Fastest Channel Set-up!

Scan and ACT™ (Automatic Channel Targeting) sync are industry's first technology from MIPRO in 2000. One-touch scans an open, interference-free receiver frequency. One-touch ACT syncs the transmitter and receiver frequency automatically.

### Ideal Applications

Ideal for use in classrooms, day-care activities; playground duty, wedding ceremony & reception; corporate meetings, seminars & presentations; places of worship, shopping center presentation paging, street/festival performers, fire fighters, law enforcement, search & rescue squads or any outdoor/indoor location where good quality speech announcements are a requirement.
