Assembly Diagram

READ THROUGH INSTRUCTIONS FROM BEGINNING TO END BEFORE STARTING TO ASSEMBLE UNIT.

- 1.) Identify and Separate all the Parts and Hardware.
- 2.) Screw in two Locking Casters (A) into the bottom front of the Base (P1) and two Non-Locking Casters (B) as shown in Illustration # 1. Tighten casters with Caster Wrench (F).
- 3.) Insert the Pole (P2) into the Base (P1) and secure to the Base using one long Bolt (D) and four small Screws (G) as shown in illustration #2.

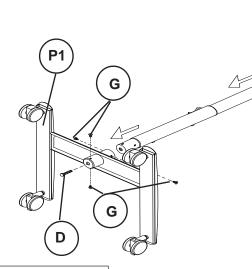

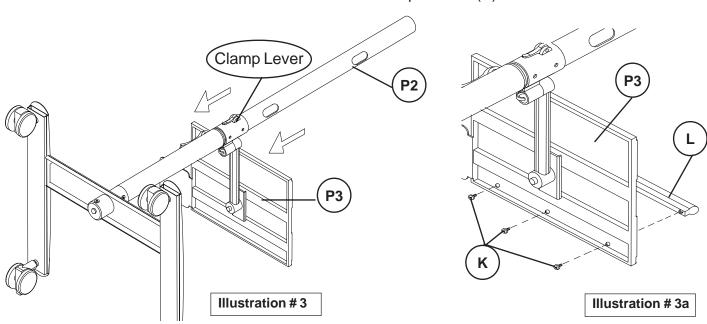

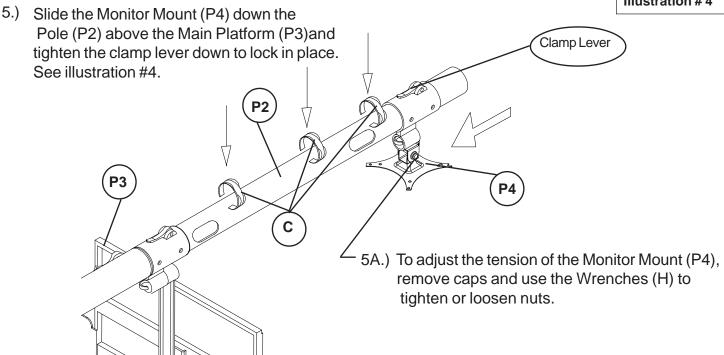

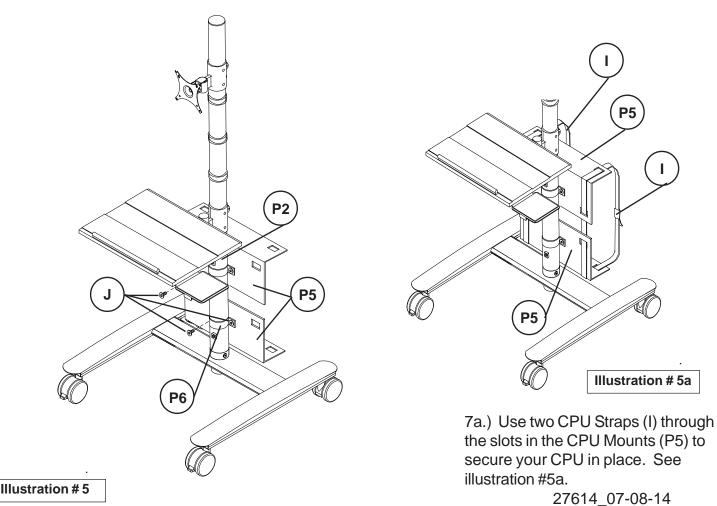

Illustration #2

4.) Open the clamp up on the Main Platform (P3) and slide the assembly down the Pole (P2). Make sure the friction button inside the clamp is retracted. When the Main Platform is in position, lock the clamp lever down to secure it in place as shown in illustration #3. Attach the Book Stop (L) to the Main Platform (P3) using three Book Stop Screws (K) as shown in illustration #3a.

- 6.) Snap-On three Cable Ties (C) onto the Pole (P2). See illustration #4.
- 7.) Attach the two CPU Mounts (P5) to the Pole (P2) using four Screws (J) through two CPU Mount Clamps (P6) as shown in illustration #5. Tighten Screws (J) with Allen Wrench (E).
