

OPS-PCAEQ-PS2

Integrated and removable single board computer with Quad Core AMD Fusion architecture ideal for rigorous applications

Enjoy seamless integration with this internal AMD Quad Core eTrinity-based PC that adheres to the Open Pluggable Specification (OPS) and increases the operational flexibility of a compatible NEC display for any digital signage application. With a Windows 10 Professional license and 8GB of integrated RAM, this PC is perfect for applications requiring external human interface devices or extra memory.

Highlights

- No external connections required. PC signal, stereo audio, RS232 control and power are all passed internally from display to OPS device, Powerful eTrinity A10-4600M 2.3 GHz Quad Core CPU provides enough horsepower to process high-end digital signage content
- Durable and protected with an all-stainless steel chassis and integrated redundant cooling fans to protect the unit during installation, operation and service
- Supports UHD 4K playback, and Full HD 1080P playback, ensures reliable, crisp and clear content
- DisplayPort output allows for multi-display support through ATI graphics
- USB 2.0 and USB 3.0 ports allow you to connect compatible devices
- Full networking capabilities through the integrated Ethernet or built in WiFi connection
- 3-year warranty matches that of the display
