## AN INTERACTIVE DISPLAY DESIGNED FOR ENTERPRISE SECURITY

Linux-Based OS | Modular ePTZ Camera Design | Capacitive Touch | Object Recognition | Superior Image Quality | Compatible with all Devices

The latest wave in technology brings you more effective with stronger network security. The IP Series brings you better, secure meetings in an all-in-one package. Never worry again about your system being vulnerable.

Get right to work with a Linux-based operating system that keeps root access to your network out of reach while staying easy for anyone to use. Navigate to what you need with ease, on an vivid, commercial-grade screen that feels as natural as writing on paper. Advanced touch technology and a capacitive touch system makes interacting with the display more seamless than ever.

A modular ePTZ utilizes a digital zoom that keeps your video quality pristine and clear for everyone involved. Work smarter and communicate better.

Connect your team to the world without compromising sensitive information.
