

## Screen Annotation / Recording Software

### Product Introduction

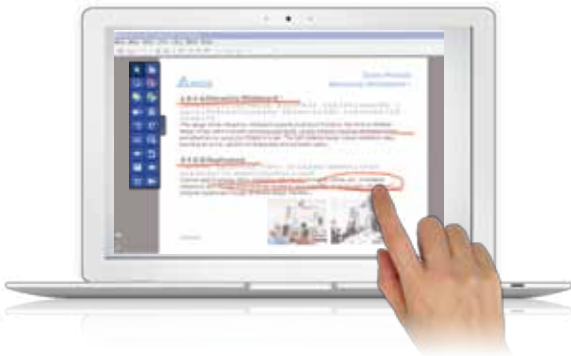

NovoScreenote is a simple yet powerful screen annotation and recording software.

- Write on the desktop screen over any running application such as MS Office, a PDF reader, a photo viewer, or even a video player.
- Save or email your annotations.
- Record the whole session as a video clip.

NovoScreenote makes it simple for users to communicate and share ideas during a live session.

### Typical Usages

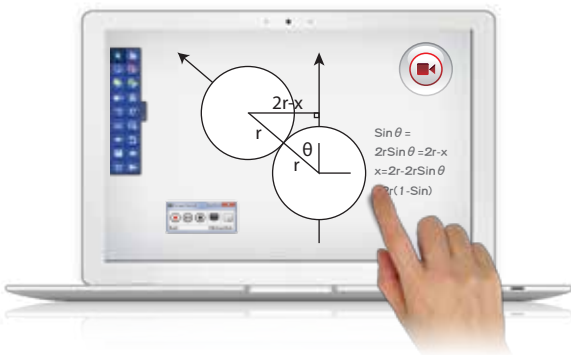

Annotate on desktop independent of applications and content running and being displayed.

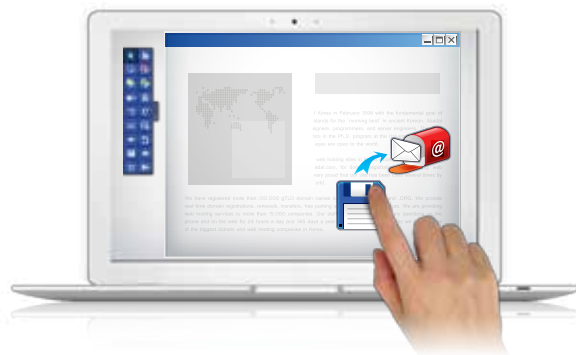

Compare notes, highlight differences, zoom in and out, and utilize white board function.

Video capture desktop screen actions.

Save and e-mail annotations with a single click.

# NovoScreenote
