

## FRESH AIR ARC FLASH HOOD VENTILATION SYSTEM AND LED LAMP

Keep cool and comfortable on hot days while working in your Oberon TCG™ or LAN™ Series arc flash suits with our fresh air hood ventilation system.

Pocket mounted system includes a high precision fan motor which provides over 8 Cubic Feet per Minute (CFM) of fresh air around the head and face.

Hood ventilation system comes complete with a durable and inherently flame resistant plastic housing, fresh air bladder, and reinforced plastic spiral hose.

Adjustable 70 lumen lamp easily clips onto the front of any TCG™ or LAN™ Series hood to provide "hands free" task lighting while working in dark or low light conditions.

### Hood Ventilation System

MFG#	DESCRIPTION	COLOR	UPC
HVS-4B-PM	Hood Vent System	Blue	731406327414
HVS-MOTOR-4B	Replacement HVS Motor	Blue	731406389252
HVSL	HVS & Lamp	Blue	731406389641
