ARC FLASH SUITS | BLANKETS | GLOVES

# SAFETY A FAMILY TRADITION SINCE 1978

In 1978 the Oberon™ legacy was born with the mission to protect workers while performing common work tasks. Over the next 45 years, Oberon™ would go on to develop many innovative products like our Face-Fit face shields which ushered in the idea that face shields could be made to protect the user from specific and unique hazards. During the 1980s Oberon™ took their innovation to a new level by inventing some of the very first arc flash hoods. This technology has now grown into an industry providing comprehensive safety for electricians, linemen, and contractors across utilities, industry, and municipalities around the world. At Oberon™ we manufacture every aspect of our designs, which leads to a best-in-class quality that you can trust. All our products are rigorously third-party tested to exceed all industry regulations.

- Arc Flash and Face Shields
- Gas Extraction Suits
- Heat Reflective Gold Shields
- Lock-out Tag-out
- Welding Face Shields
- Safety Goggles and Glasses

# OUR ROOTS

1978

Jack Hirschmann established Oberon™ Company

1983

Invented first Gold Shield

1985

Invented the first Arc Flash Suit Hood

2012

Invented the first True Color Grey Arc Flash Face Shield

2016

True Color Grey Arc Flash Suit Series created

2020

Developed GES8+ Series Gas Extraction Suit

---

Oberon™ is more than a USA manufacturer; it is an engineering business that develops innovative electrical safety solutions.

Oberon™ is an **ISO 9001** accredited manufacturing facility and is actively involved in the **ASTM and ANSI Standards** development process as participating members on several technical committees. All of Oberon's products have been manufactured in accordance with every applicable Standard. Not only does Oberon™ help write these Standards, we lead by example in our research, product development, laboratory testing and manufacturing processes.

#### NFPA 70E and CSA Z462 Standards

The National Fire Protection Association and the Canadian Standards Association address the required elements of corporate electrical safety program, including training, engineering controls, work methods, and ultimately the personal protective apparel as the last line of defense for worker safety.

#### European Standards

The European Economic Area or EEA has standards for health, safety, and environmental protection. All products sold into the EEA must meet these standards and should be CE marked by the manufacturer to signify these European Standards are met.

#### ANSI Standards

The American National Standards Institute oversees the development of voluntary consensus standards for products, services, processes, systems, and personnel.

#### ASTM Standards

The American Society of Testing and Materials (ASTM) F18 Committee has developed standards covering the manufacturing, testing, care and use of arc flash PPE. Oberon's products have been certified using the most current version of every applicable ASTM testing standard and are in compliance with the overarching performance standard, ASTM F1506.

**ANSI Z87.1** addresses the design and performance characteristics of eye and face protective devices such as arc flash face shields.

**ANSI Z89.1** covers the performance, selection, care and use head protective devices such as hard caps and hard hats.

**ASTM D120** addresses manufacturing and testing of rubber electrical insulating gloves from worker protection from electrical shocks.

**ASTM F2178** is the test method developed to determine the protective characteristics of arc flash face shields and hoods against the thermal energy of an electric arc.

**ASTM F696** is the standard that covers leather protectors used in conjunction with rubber electrical gloves.

**ASTM F1959** is the test method developed to determine the protective characteristics of knit and woven material against the thermal energy of an electric arc.

**ASTM F1506** covers the design characteristics of garments and the knit and woven materials of which they are constructed.

**ASTM F2676** is the test standard used to evaluate the design and protective characteristics of arc suppression blankets against the thermal and concussive energy of an electric arc.

# ARC FLASH PERSONAL PROTECTION (PPE) CATEGORIES

The National Fire Protection Association (NFPA) uses four Arc Flash PPE Categories to classify ranges of arc flash hazards, and the corresponding requirements for PPE. The categories are one of the methods used in the current NFPA 70E standard to inform workers about the protection they need while working on energized equipment. CSA Z462 recently added an Arc Flash PPE Category 5 for equipment with potential incident energy levels up to 75 cal/cm<sup>2</sup>.

Each category includes a minimum arc rating value for the required PPE. This value is determined by the PPE manufacturer, and indicates the protection provided by the equipment (in cal/cm<sup>2</sup>) as the point where a worker would have a 50% probability of receiving a 2nd degree skin burn.

## PPE CATEGORY 1

### Arc-Rated Clothing

- AR long-sleeve shirt and pants or arc-rated coverall
- AR face shield or arc flash suit hood
- AR jacket, parka, rainwear or hard hat liner

### Protective Equipment

- Hard hat
- Safety glasses or safety goggles
- Hearing protection
- Heavy-duty leather gloves
- Leather footwear

### Minimum Arc Rating

**4 cal/cm<sup>2</sup>**

## PPE CATEGORY 2

### Arc-Rated Clothing

- AR long-sleeve shirt and pants or arc-rated coverall
- AR rated suit hood or arc rated face shield & balaclava
- AR jacket, parka, rainwear or hard hat liner

### Protective Equipment

- Hard hat
- Safety glasses or safety goggles
- Hearing protection
- Heavy-duty leather gloves
- Leather footwear

### Minimum Arc Rating

**8 cal/cm<sup>2</sup>**

## PPE CATEGORY 3

### Arc-Rated Clothing

- AR long-sleeve shirt, pants, and hood or arc rated coverall and hood
- AR suit consisting of hood, coat, bib overalls, or hood and coveralls
- AR gloves
- AR jacket, parka, rainwear or hard hat liner

### Protective Equipment

- Hard hat
- Safety glasses or safety goggles
- Hearing protection
- Heavy-duty leather gloves
- Leather footwear

### Minimum Arc Rating

**25 cal/cm<sup>2</sup>**

## PPE CATEGORY 4

### Arc-Rated Clothing

- AR long-sleeve shirt, pants, and hood or arc-rated coverall & hood
- AR suit consisting of hood, coat, bib overalls, or hood & coveralls
- AR gloves
- AR jacket, parka, rainwear or hard hat liner

### Protective Equipment

- Hard hat
- Safety glasses or safety goggles
- Hearing protection
- Heavy-duty leather gloves
- Leather footwear

### Minimum Arc Rating

**40 cal/cm<sup>2</sup>**

## PPE CATEGORY 5

### Arc-Rated Clothing

- AR long-sleeve shirt, pants, and hood or arc-rated coverall & hood
- AR suit consisting of hood, coat, bib overalls, or hood & coveralls
- AR gloves
- AR jacket, parka, rainwear or hard hat liner

### Protective Equipment

- Hard hat
- Safety glasses or safety goggles
- Hearing protection
- Heavy-duty leather gloves
- Leather footwear

### Minimum Arc Rating

**75 cal/cm<sup>2</sup>**

### Minimum Arc Rating

**100 cal/cm<sup>2</sup>**

### Minimum Arc Rating

**140 cal/cm<sup>2</sup>**

\*Energized electrical work over 40 cal/cm<sup>2</sup> requires an incident energy analysis to be performed. Once this analysis has been done the appropriate PPE can be selected from the chart above by matching the calculated incident energy level with the corresponding PPE.

\*Energized electrical work over 40 cal/cm<sup>2</sup> requires an incident energy analysis to be performed. Once this analysis has been done the appropriate PPE can be selected from the chart above by matching the calculated incident energy level with the corresponding PPE.

## MEASURING INSTRUCTIONS

### 1. Use a Fabric Measuring Tape

**Chest:** Measure around the chest just under the arms and across the shoulder blades.

**Waist:** Measure around the natural waistline.

**Height:** Measure the total height of the worker. You can tape one measuring tape to a wall and have the worker stand up straight against it.

### 2. Select the Size

After measuring the worker select the size using the tables above. Each of these numbers represent the maximum measurement per size. Always round up and use the larger of either Chest or Waist.

### 3. Select the Height

All suits are sold as a Regular size. Order bib-overalls for adjustable height. Short, Tall and Extra Tall sizes are custom Made to Order. Regular Standard size is 5'10" to 6'1". Workers under 5'8" or over 6'4" need custom sizes.

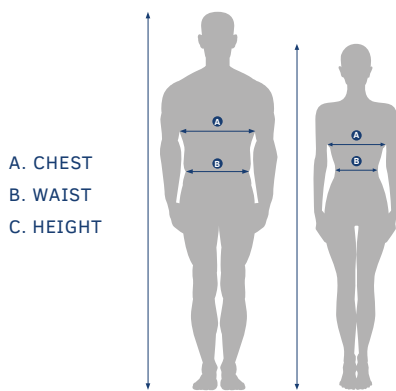

#### Worker Body Measurement:

The worker's actual measurements determined using a fabric measuring tape.

#### Coat, Bibs & Coverall Measurements:

Garment dimensions are larger than the user's measurements to allow space for movement.

#### SUIT MEASUREMENT GUIDE

#### GLOVE MEASUREMENT GUIDE

|------------|----|----|----|----|----|----|----|----|

##### COVERALL MEASUREMENTS

|            |    |    |    |    |    |    |    |    |
|------------|----|----|----|----|----|----|----|----|
| CHEST (in) | 46 | 49 | 52 | 56 | 60 | 64 | 68 | 72 |
| WAIST (in) | 36 | 39 | 42 | 46 | 50 | 54 | 58 | 62 |

#### GLOVE MEASURING INSTRUCTIONS

1. Measure around the hand at the fullest part.
2. Measure from the tip of the middle finger to the base of the hand.
3. Use the LARGEST of these two measurements for the correct size glove.
4. The number of inches/centimeters measured equals the size of the glove.

#### GLOVE SIZING CHART

| SIZE   | XS | S   | M     | L      | XL      | 2XL     |

**True Color Grey is a medium density filter that allows all visible light to pass through without causing any color distortion.**

Our patented TCG™ Technology has finally solved the biggest issue electricians face when wearing appropriate Arc Flash protection. Historically, they have always experienced color distortion when looking through their protective shields.

The end result is a nearly clear experience for the worker when performing electrical tasks. With the advent of this new technology electrical workers will no longer struggle to see colored wires or electrical tape while working energized.

*Color distortion without TCG Technology.*

*Looking through shield with TCG Technology.*

## TCG™ ARC FLASH FACE SHIELDS

Oberon's innovative True Color Grey (TCG) arc flash face shield features a patented nearly clear technology that allows for maximum color acuity while performing common electrical work tasks.

Made from a durable polycarbonate and includes an anti-scratch resistant and anti-fog coating.

Meets ANSI /ISEA 125 Level 2 Conformity and Arc Flash PPE Category 2 standards with an arc rating of 17 or 30 cal/cm<sup>2</sup>. Please refer to NFPA 70E or CSA Z462 Standards for specific selection requirements.

Available accessories include a crown mountable shield light.

## 8 CAL HRC2™ ARC FLASH KIT

Includes True Color Grey arc flash face shield with hard cap, flame resistant treated cotton coverall, balaclava, and a nylon storage bag.

Nearly clear grey window provides 100% true color acuity and includes an anti-scratch and anti-fog resistant coating.

Meets ANSI /ISEA 125 Level 2 Conformity and Arc Flash PPE Category 2 standards with an arc rating of 8 cal/cm<sup>2</sup>. Please refer to NFPA 70E or CSA Z462 Standards for specific selection requirements.

Available with optional shield mounted light for increased visibility when working in dark spaces.

## 8 CAL HRC2™ EV ARC FLASH KIT

Arc flash suit kit comes equipped with an Oberon™ hard cap and face shield, balaclava, coveralls with escape strap, Class 0 glove kit, safety glasses, earplugs and storage bucket.

The balaclava and coveralls are made from a flame resistant treated cotton.

Meets ANSI/ISEA 125 Conformity Level 2 and NFPA 70E PPE Category 2 Standards and has an ATPV rating of 8 cal/cm<sup>2</sup>.

Waterproof bucket comes equipped with a locking top to keep your arc flash kit dry and protected from the harshest of elements.

## 12 CAL TCG2P™ ARC FLASH KIT

Includes True Color Grey arc flash face shield with hard cap, inherently flame resistant coverall, balaclava, and a nylon storage bag.

Nearly clear grey window provides 100% true color acuity and includes an anti-scratch and anti-fog resistant coating.

Meets ANSI /ISEA 125 Level 2 Conformity and Arc Flash PPE Category 2 standards with an arc rating of 12 cal/cm<sup>2</sup>. Please refer to NFPA 70E or CSA Z462 Standards for specific selection requirements.

Available with optional shield mounted light for increased visibility when working in dark spaces.

## 12 CAL TCG2P™ EZ LIFT KIT

Arc flash suit set comes equipped with a True Color Grey (TCG) EZ lift face shield and hard cap, balaclava, coveralls, and storage bag. Electrical Gloves sold separately.

Meets ANSI /ISEA 125 Level 2 Conformity and Arc Flash PPE Category 2 Standards with an Arc rating of 12 cal/cm<sup>2</sup>. Please refer to NFPA 70E or CSA Z462 Standards for specific selection requirements.

Unique face shield design allows user to easily lift face shield up when pausing electrical work tasks. The coveralls are made from an inherently flame resistant fabric.

Durable storage bag helps to keep your Arc flash kit dry and protected from the harshest of elements.

## 12 CAL LAN™ ARC FLASH KIT

Arc flash suit set is made from an inherently flame resistant fabric and comes equipped with a hood, coat, and bib overalls. A front mounted L.E.D. light and fresh air hood ventilation system can be added to the hood for increased comfort and vision while performing electrical safety tasks.

Hoods utilize a patented True Color Grey (TCG™) arc flash face shield technology which produces no color distortion while performing common work tasks and comes with a scratch resistant, anti-fog coating.

Meets ANSI /ISEA 125 Level 2 Conformity and Arc Flash PPE Category 2 standards with an arc rating of 12 cal/cm<sup>2</sup>. Please refer to NFPA 70E or CSA Z462 Standards for specific selection requirements.

Available accessories include storage bags which are sold separately.

## TCG75™ ARC FLASH KIT

Nearly clear TCG™ hood window provides 100% true color acuity and includes anti-fog and anti-scratch resistant coatings. Hood comes equipped with an optional ventilation system and/or LED light for maximum comfort and vision while working.

Reflective day/night striping on arms and legs for increased visibility. Ultralight suit made from a proprietary blend of arc rated, inherently flame resistant, aramid fibers.

Meets ANSI /ISEA 125 Level 2 Conformity with an arc rating of 76 cal/cm<sup>2</sup>. Meets NFPA 70E Arc Flash Category 4 or CSA Z462 Category 5 standards. Please refer to your applicable standards for specific selection criteria.

Knit cuff, dual-stage zipper front closure and adjustable suspenders for easy on/off.

## TCG140B™ ARC FLASH KIT

Nearly clear TCG™ hood window provides 100% true color acuity and includes anti-fog and anti-scratch resistant coatings. Hood comes equipped with a ventilation system and/or LED light for maximum comfort and vision while working.

Aramid fabric contains a layer of ballistic protection to prevent injuries from arc flashes as well as projectiles which can occur from an arc blast.

Meets ANSI /ISEA 125 Level 2 Conformity with an arc rating of 140 cal/cm2. Meets NFPA 70E Arc Flash Category 4 or CSA Z462 Category 5 standards. Please refer to your applicable standards for specific selection criteria.

Hood comes standard with securing straps, front mounted light, and hood ventilation system.

## LAN40™ ARC FLASH KIT

Nearly clear TCG™ hood window provides 100% true color acuity and includes anti-fog and anti-scratch resistant coatings. Hood comes equipped with an optional ventilation system and/or LED light for maximum comfort and vision while working.

Suit made from a blend of arc rated, inherently flame resistant fibers and contains no velcro, making it the perfect choice when frequent laundering is needed.

Meets ANSI /ISEA 125 Level 2 Conformity and Arc Flash PPE Category 4 standards with an arc rating of 42 cal/cm<sup>2</sup>. Please refer to NFPA 70E or CSA Z462 Standards for specific selection requirements.

Coat comes with a knit cuff and a zipper front closure. The bib overalls have adjustable suspenders for easy on/off.

## CAT40™ ARC FLASH KIT

Nearly clear grey hood window provides 100% true color acuity and includes anti-fog and anti-scratch resistant coatings.

Made from a flame resistant treated cotton fabric.

Meets ANSI /ISEA 125 Level 2 Conformity and Arc Flash PPE Category 4 standards with an arc rating of 41 cal/cm<sup>2</sup>.

Please refer to NFPA 70E or CSA Z462 Standards for specific selection requirements.

Adjustable suspenders for easy on/off. Simple and easy to use Velcro® front closure.

### What protection do Rubber Insulating Gloves provide?

Rubber Insulating Gloves are designed and constructed to act as a barrier between the user and the energy/voltage, to insulate the user from electric shock. The ASTM D120 standard outlines the protection that the glove provides. The rubber gloves are thicker as their protection increases. The rubber gloves will provide protection against either Alternating Current (AC) as well as Direct Current (DC), up to the levels detailed in the standard as well as typically on the labeling, which is required to be affixed to each glove. It is important NOT to exceed the USE voltage detailed to avoid injury.

#### RUBBER GLOVE CLASS

#### GLOVE MEASUREMENT GUIDE

- A. HAND CIRCUMFERENCE
- B. HAND LENGTH

#### MEASURING INSTRUCTIONS

1. Measure around the hand at the fullest part.
2. Measure from the tip of the middle finger to the base of the hand.
3. Use the LARGEST of these two measurements for the correct size glove.
4. The number of inches/centimeters measured equals the size of the glove.

#### GLOVE SIZING CHART

| SIZE   | XS | S   | M     | L      | XL      | 2XL     |

- Ultralight gloves are made from a proprietary blend of arc rated, inherently flame resistant, aramid fibers.
- Gloves are the perfect solution for thermographers or any electrical worker that needs arc flash protection for their hands.
- TCG™ Series arc flash gloves meet ANSI /ISEA 125 Level 2 Conformity and Arc Flash PPE Category 3 and 4 standards with an arc ratings of 25 cal/cm2 up to 140 cal/cm2. Please refer to NFPA 70E or CSA Z462 Standards for specific selection requirements.

# ACCESSORIES

## Cooling Vest

| MFG#         | DESCRIPTION            | COLOR | UPC          |
|--------------|------------------------|-------|--------------|
| CV-ARC-REG   | Arc Flash Cooling Vest | Khaki | 731406324253 |
| CV-PACK-EACH | Vest Replacement Pack  | Brown | 731406324307 |
| CV-PACK-SET  | Vest Cooling Pack Set  | Brown | 731406324314 |

Oberon™ offers a flame resistant cooling vest that can be worn underneath your arc flash suit to keep cool. It has adjustable straps to make customizing your fit quick and easy. The set includes 8 aqueous non-flammable gel packs.

### Hood Ventilation System

| MFG#         | DESCRIPTION           | COLOR | UPC          |
|--------------|-----------------------|-------|--------------|
| HVS-4B-PM    | Hood Vent Sys         | Blue  | 731406327414 |
| HVS-MOTOR-4B | Replacement HVS Motor | Blue  | 731406389252 |

Keep cool when wearing your Oberon™ arc flash suit with our fresh air hood ventilation system. Kit includes fan motor, bladder and fire resistant hose and can easily be installed in any TCG™ or LAN™40 Series Hoods.

### Hood & Shield Lights

| MFG#           | DESCRIPTION            | COLOR | UPC          |
|----------------|------------------------|-------|--------------|
| SHIELD-LIGHT-K | Shield Light & Adapter | Black | 731406485404 |
| LED_LAMP       | L.E.D. Lamp            | Grey  | 731406390319 |

Oberon's hood mounted lamp can add some needed light when working in dark conditions or when looking into electrical panels. Light easily clips onto the front of hood and can easily be adjusted to point light in whatever height is needed. The shield light kit comes equipped with the light and all the necessary mounting hardware.

### Escape Strap

| MFG# | DESCRIPTION  | COLOR  | UPC          |
|------|--------------|--------|--------------|
| +ES  | Escape Strap | Yellow | 731406505461 |

This continuous loop Kevlar strap can be added to any TCG™ Series suit coat. This 10' long strap can be used to drag a worker from harms way or as a secondary communication device.

# BAGS+BLANKETS

### Storage Bags

| MFG#            | DESCRIPTION          | COLOR | UPC          |
|-----------------|----------------------|-------|--------------|
| KITBAG          | Deluxe Arc Flash Bag | Blue  | 731406317446 |

| ARCBKT-40KA-L | Arc Blanket Kit | Khaki | 5'x8' | 731406317644 |

- Oberon's Arc Flash Blankets are produced and tested in accordance with ASTM F2676 standards.
- The blankets are the perfect solution for use in tight spaces such as underground vaults or to create a barrier between the worker and a potential arc flash hazard.
- The blankets come with arc tested mounting straps and storage bag. Two break-open thermal protection levels are available 15kA (BTP 181), 25kA (BTP 270), 40kA (BTP 518).

# ***CURTAIN CUBE***

### Arc Flash Curtain Cube

| MFG#             | DESCRIPTION  | COLOR  | UPC          |
|------------------|--------------|--------|--------------|
| ARCBKT-40KA-CUBE | Curtain Cube | Yellow | 731406518058 |

- Portable cube is made from a durable Aramid fabric that is tested and designed to divert energy away from the worker while performing every day electrical tasks. It can also serve as an additional barrier to safeguard workers that are in close proximity to electrical equipment.
- The cube can be moved from site to site and can be deployed on multiple configurations.
- The 4.5' x 6.5' cube framework is made from a durable Schedule 80 PVC frame and is comprised of 3 Aramid panels measuring 4'x5'. The panels are further reinforced by the use of Kevlar® rope for added strength and stability.
- Anchoring is recommended for holding the structure in place to contain or divert arc energy.
- Meets ASTM F2676 and ASTM F3272 curtain standard and is rated for a maximum arc current of 40 kA (BTP 517).
- Made in the USA

**The Arc Flash Curtain Cube is designed to fold in on itself for easy storage.**
