## EASY AND LAMP FREE

Reduces power usage and eliminates the need for lamps

Virtually maintenance free – Ultimate reliability and no need to change filters or lamps

Save time and money – Less cost associated with maintenance and energy use

Minimal performance degradation over time – LED/laser technology stays bright

Optoma's laser/LED projectors bring together innovative technologies that make them light, bright and easy to use and maintain. These lamp-free projectors help businesses and educators deliver their message effectively while reducing their carbon footprint. The maintenance-free light source lasts over 20,000 hours, ensuring that these projectors give years of service without needing to replace or dispose of any lamp. Both incorporate a short-throw design and weigh about nine pounds. Both deliver business-ready brightness with ZX212ST at 2300 lumens, and the ZW212ST at 2500 lumens, while 100,000:1 contrast ratio ensures crisp and clear text. Whether for classrooms or meeting rooms, wireless capabilities and Crestron® certification allow for remote management and control to support quick and easy usage.

## CONNECTIVITY (May require optional accessories)
