The Optoma GT5500 is a Full HD 1080p ultra short throw DLP Projector for Gaming, Movies, and Sports. The GT5500 features incredibly bright and colorful picture quality at 3500 lumens along with an 25000:1 contrast ratio for solid deep blacks. GT5500's ultra short throw lens projects a BIG 100 inch image onto a wall-mounted screen or flat surface, including even a wall from less than 13 inches away. Gone are the days of struggling to install mounts or finding the ideal position in the room to project the right image. Now, you simply "place and play." With the GT5500, the future of gaming and home theater projectors has arrived.

Experience BIG screening gaming with vivid colors and deep blacks while playing the latest AAA-rated game titles for Xbox One, PS4, and your Personal Computer. Challenge opposing players online in glorious 1080p with 100% field of view and often without the need to zoom before engaging in on-screen battle. BIG screen gaming with the GT5500 literally changes how you play the game.

Recreate the excitement of watching the latest blockbuster movie in the comfort of your own home by watching Blu-ray movies on the GT5500's super-sized screen. Come together with family and friends to watch Football, Basketball, Baseball, UFC, or whatever your favorite sport for the ultimate viewing experience. Watching sports on the GT5500 is simply larger than life.

¹Lamp life is dependent on many factors, including lamp mode, display mode, usage, environmental conditions and more. Lamp brightness can decrease over time.

³3D content can be viewed with either RF or DLP Link active shutter 3D glasses when projector is used with a compatible 3D player. RF 3D glasses require the use of an RF 3D emitter and a projector with a 3D VESA Sync port. Please visit [www.OptomaUSA.com](http://www.OptomaUSA.com) for more information.
