TD-200 AccuDrive[®] AD Tip-Heater Cartridge Iron

PN: 6010-0166-P1 (Handpiece), 6993-0317-P1 (Kit)

The TD-200 AccuDrive[®] Tip-Heater Cartridge Soldering Iron combines unsurpassed thermal performance with an ergonomic aluminum handle designed to stay cool and comfortable during extended or continuous soldering. The slim & light-weight handle dramatically reduces grip stress/operator fatigue.

PS-90 Universal Soldering Iron[®] ST

SensaTemp PN: 6010-0131-P1 (Handpiece), 6993-0199-P1 (Kit)

The PS-90 is excellent for general purpose and heavy-duty soldering and SMT rework operations where high thermal capacity and flexibility are required. The Iron provides a wide range of SMD and Thru-Hole installation and removal capability as well as unsurpassed thermal performance on heavy, multilayer Thru-Hole assemblies at safe, lower working temperatures.

TJ-70 ThermoJet[®] ST

SensaTemp PN: 6010-0131-P1 (Handpiece), 6993-0199-P1 (Kit)

The TJ-70 ThermoJet[®] hot air pencil is ideal for delivering heat for the installation and removal of chip components, SOTs, and SOICs. A variety of quick change nozzles are available, to meet your operational needs. Its pencil grip design and finger-actuated control switch facilitates ease-of-use and manipulation in tight places for the precise application of hot air for small SMDs such as 0201s.

AccuDrive[®] AD

SENSATEMP[®] ST

MT-200 AccuDrive[®] MiniTweez[®] AD Thermal Tweezer Handpiece

PN: 6010-0169-P1 (Handpiece), 6993-0321-P1 (Kit)

The MT-200 MiniTweez[®] is a high-powered precision thermal tweezer designed to rework micro-components such as 0402's, 0603's, 0201's, and even 01005's in a simple, one-handed operation. The MT-200 has been engineered for multi-axis and rotational (theta) tip alignment that provides ultimate control and targeting accuracy. A Tip-Gap Adjustment Wheel adjusts the gap between the tips to reduce the distance from tip-end to tip-end there by reducing grip stress and operator fatigue during repetitive operations.

TT-65 ThermoTweez[®] ST

Sensatemp PN: 7025-0001-P1 (Handpiece), 6993-0268-P1 (Kit)

The most versatile and only patented SMT removal tool provides safe, one-handed, rapid reflow and component removal of PLCCs and other 4 or 2 sided SMT components.

SX-100 Sodr-X-Tractor[®] ST

Sensatemp PN: 6010-0106-P1 (Handpiece), 6993-0213-P1 (Kit)

The best performing, in-line, vacuum desoldering tool is ideal for Thru-Hole desoldering when fitted with SX-100 Desoldering Tips, for SMT land clean-up when fitted with SX-100 Flo-D-Sodr[®] Tips, and for one-handed surface mount component removal when fitted with SMD removal tips.

System	MBT360	ADS200+	ST125	ST35	ST25
