Specifications

Distance

Measurement range	6 ... 800 m
Accuracy	±1 m; ±0.2 %
Resolution	1 m

Speed

Measurement range	0 ... 300 km/h
Accuracy	1 km/h
Resolution laser type	905 nm

Binoculars

Ocular / eyepiece size	16 mm
Objective lens size	24 mm
Relative brightness	15.21 mm
Exit pupil size	3.9 mm
Magnification power	6x
Field of view	7°
Adjustment of ocular	± 4

General

Operating temp.	-20 ... 50°C / -4 ... 122°F
Power supply	1 x CR2 3V battery
Approx. weight	185 g / < 1 lb
Approx. dimensions	104 x 72 x 41 mm / 4.09 x 2.83 x 1.61 in
