- Innovative fibres - we source our base ingredients to develop our own unique high performance yarns and fibres that offer cut protection whilst maintaining high levels of comfort.
- Reinforcement - between the thumb and forefinger, improves cut resistance and extends glove life in an inherently weak area.
- 360° breathability - patented micro-foam nitrile coating offers 360° breathability, making it the most breathable glove on the market today.
- Form, fit and feel - mimics the "hand at rest", reducing hand fatigue and increasing comfort.
