Conceive your next idea here!

Push-button operation for color prints or digital copies of your work.

Updated & slimmed down. The next generation of copyboards.

NEW

M-18 Series Electronic Copyboards

Get color copies of your meeting notes in record time. New, lighter, thinner, faster.

PLUS Electronic Copyboards allow you to save or print out the notes that you have written on the board's surface. Using PLUS Copyboards makes meetings more productive as well as more lively. Such simple operation brings dramatic results!

PLUS

The PLUS M-18

Updated & Slimmed Down

Building on the success of the M-12 series, the new PLUS M-18 is thinner, lighter, loaded with advanced features and yet remains competitively priced. Its clean, stylish appearance will compliment a variety of business and office environments.

Slim Profile

The M-18 has been slimmed down from the previous M-12 model, going from 5 inches in depth to under 3 inches. The slimmer and lighter M-18 is more easily mounted on a wall and takes up less space in your meeting room or office.

Faster Scanning Time

PLUS has once again improved scanning time. The M-18S scans in a mere 15 seconds, an improvement of 8 seconds over the previous model.

Smooth Hand-Scrolling

The surface of the M-18 is easy to move when using just your hand. The scrolling force needed has been reduced to 7 oz (0.2kg) — a vast improvement compared to the previous model's 3 lbs (1.4kg).

Easy-Access USB Port

For the M-18, PLUS has moved the USB port to the front of the board for easy access when saving to a USB Memory Stick.

Built-in Software

No need to install software. Just connect your computer to the M-18 via a USB cable to save an image. Both PC and Mac compatible.

PDF, JPG and PNG Support

Users can easily save image files to USB memory or a PC in either PDF, JPG or PNG formats.

Eco-friendly, Low Power Consumption.

The M-18 was designed to be both environmentally friendly as well as economically friendly. Power consumption has been reduced to 12W/2W (M-18S) from the previous 40W/5W (M12S). [Operation/Standby]

Magnet Attachable

Magnets can be attached to the board surface.

| Model Name | | M-18S (Standard) | M-18W (Wide) | |
|-----------------------|--|--|---|--------------------------|
| Size | Installation Method | Wall Mount or Floor Stand | | |
| | External Dimensions (With Floor Stand ^{*1}) | W58.3 x D26.6 x H76.6 ^{**2} inches (W1480 x D675 x H1947 ^{**2} mm) | W78 x D26.6 x H76.6 ^{**2} inches (W1980 x D675 x H1947 ^{**2} mm) | |
| | Main Unit Weight | 44 lbs ^{**3} (20 kg ^{**3}) | 55 lbs ^{**3} (25 kg ^{**3}) | |
