AV Racks & Accessories

peerless-AV®

peerless-AV®

Peerless-AV has been a leading designer, manufacturer and distributor of Made-in-the-USA audio-visual solutions for over 45 years. Peerless-AV provides innovative solutions that focus on quality, ease-of-installation, and functionality while still offering pleasing aesthetics and ultimately the best value. With our high standards and expertise, both commercial and residential installers worldwide trust Peerless-AV products for installations in schools, universities, offices, healthcare facilities, hotels, sports arenas, training facilities, and retail environments, as well as in homes.

Based on our vision of quality, functionality, safety, security, and reliability, we designed a line of rack systems with a mind toward the future of electronic packaging to offer high-quality, cost-sensitive solutions for the industry's most demanding electronic packaging needs. We gathered a group of rack consultants, contractors, and system integrators and used their input and expertise to develop each of our rack products. The result is a line of racks that combines modern, streamlined design with an ease-of-use and flexibility that covers any commercial or residential electronic packaging requirements.

Our racks have a static load rating up to 12,250lb, are available in a variety of sizes, and feature a new line of accessories that expands your design capabilities and options. With our online rack configurator, you can easily design your own unit, obtain drawings, see billing information, and have your product delivered more quickly.
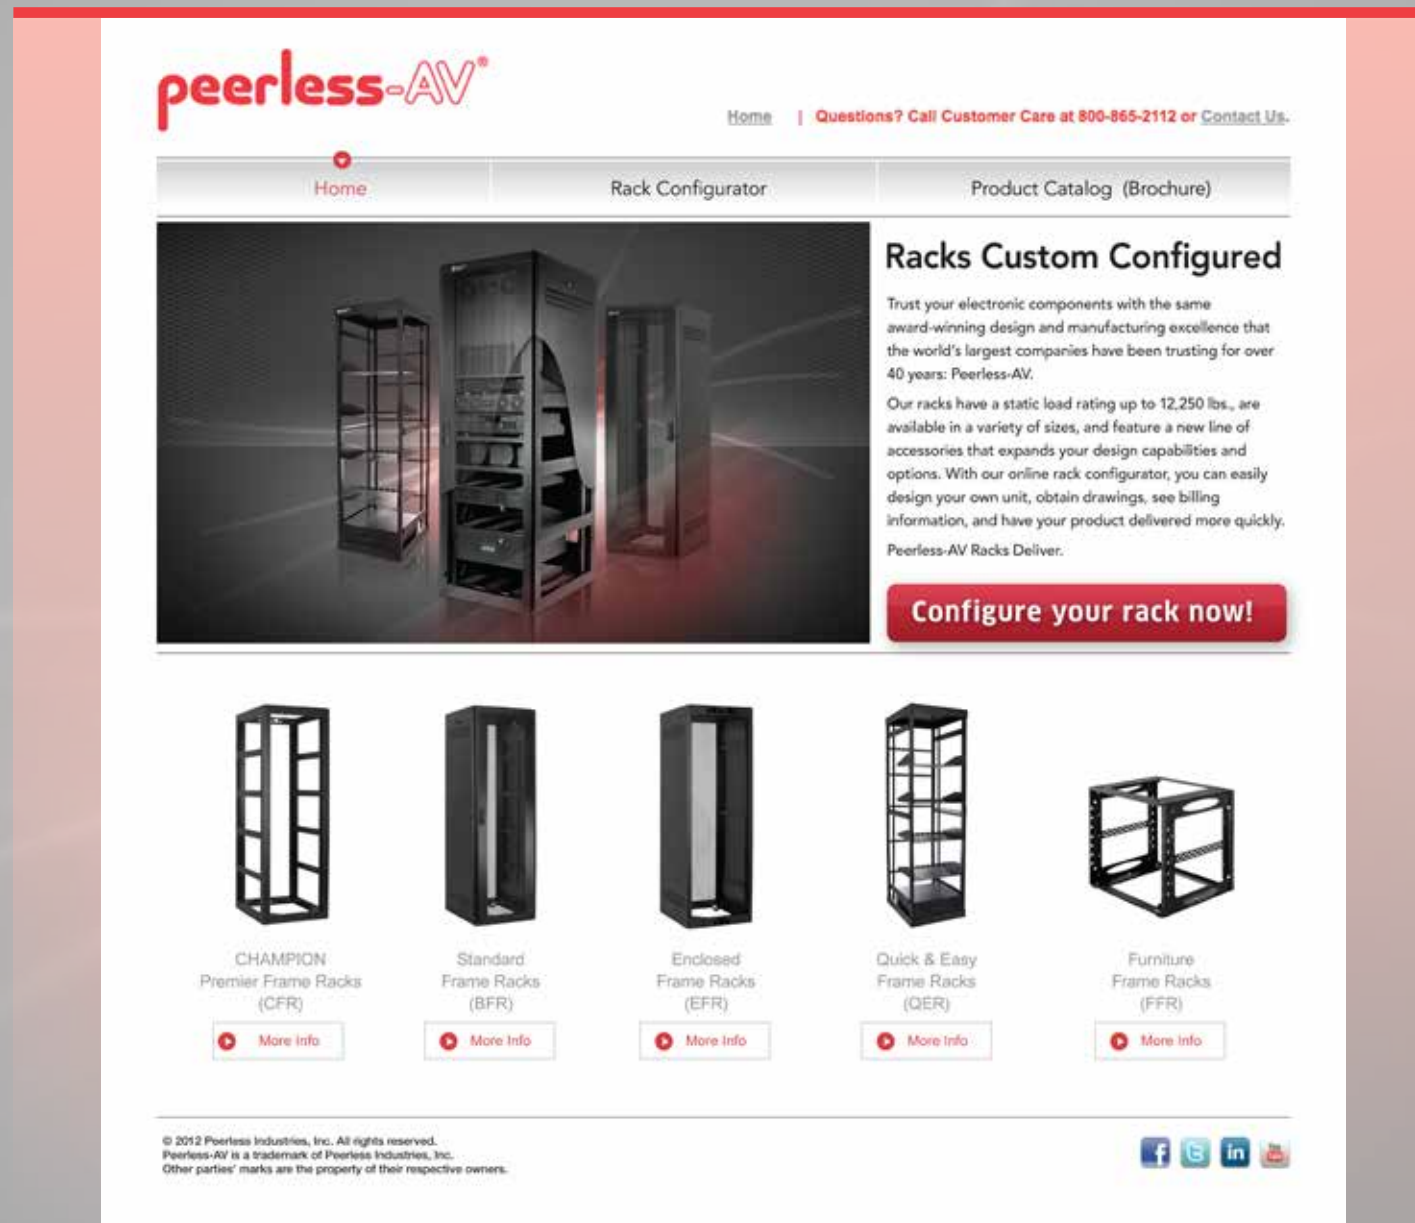

Trust your electronic components with the same award-winning design and manufacturing excellence that the world's largest companies have been trusting for over 45 years: Peerless-AV.

Designed and Manufactured in the USA

MADE IN USA™

Peerless-AV Online Configurator

Use our online configurator to build your own rack, select a pre-configured rack or customize both with accessories. You'll receive:
- One part number
- Drawing of all accessories shown as mounted in your rack
- 3D model to explore design
- Complete bill of material with part numbers, descriptions, quantities and shipping weights
- Accessory order configuration

Configure your custom rack @ racks.peerless-av.com

CFR

The CFR is the optimal rack for larger cabling requirements and features open sides for easy access to your electronic equipment. This fully welded rack incorporates wider main channels and a heavy-duty caster base as part of the rack's robust design. Two removable rear plates are incorporated into the rack at the top and base for electrical wiring. The CFR has been tested to a static load rating of 12,250lb, ensuring the security of your electronic components. Two pairs of fully adjustable mounting channels are included and feature marked RU heights for fast and easy equipment installation. CFR racks are available in four different heights and two depths and can be used as standalone racks or ganged together. A full line of accessories makes this a flexible racking system. Four 1,000lb leg levelers and mounting hardware are included with each rack. CFR racks are available in any of our 10 standard colors and custom colors are available upon request.

BFR

The BFR features open sides for easy access to your electronic equipment. This fully welded rack incorporates a heavy-duty caster base for stability and mobility, and two removable rear plates at the top and base for electrical wiring. BFR has been tested to a static load rating of 12,250lb, ensuring the security of your electronic components. Two pairs of fully adjustable mounting channels, featuring marked RU heights, make equipment installation quick and easy. BFR racks are available in four different heights and depths. They can be used as standalone racks or ganged together. A full line of accessories provides expanded racking capabilities. Four 1,000lb leg levelers and mounting hardware are included with each rack. BFR racks are available in any of our 10 standard colors and custom colors are available upon request.

EFR

The EFR is a fully welded rack that incorporates non-removable solid side panels and a heavy-duty caster base as part of its robust design. Two removable rear plates are incorporated into the rack, top and base, for electrical wiring. The EFR's 12,250lb static load rating ensures the safety and security of your electronic components. EFR includes two pairs of fully adjustable mounting channels with marked RU heights, allowing fast, easy equipment installation. EFR racks are available in six different heights and two depths. They can be used as standalone racks or ganged together. A full line of accessories helps keep your equipment organized. Four 1,000lb leg levelers and mounting hardware are included with each rack. EFR racks are available in any of our 10 standard colors and custom colors are available upon request.
FFR

FFR is Peerless-AV's series of low profile, fully welded, open racks that are perfect for mounting all of your AV equipment inside lecterns, credenzas and entertainment systems. FFR racks provide a maximum amount of space in a minimal, space saving design. Delrin® runners on the bottom of the rack allow you to slide the rack in and out easily without scratching furniture. The rack's four corner posts feature #10-32 tapped mounting rails with individual RU markings for easy equipment mounting. The FFR is available in seven different heights and two depths. The FFR features a durable, black powder coat finish.

Universal Accessories

Peerless-AV offers a full line of accessories for its racks, including top and side panels, front and rear doors, and internal accessories such as shelves, drawers, power strips and fan panels. Peerless-AV accessories expand the capabilities of your rack system with simple, standardized solutions. Our online rack configurator helps you craft the perfect design for your system.

QER

QER was designed to provide safe and secure mounting for all AV equipment while saving the installer valuable time at every job site. This versatile rack system is available in six different heights and two different depths. The open-frame design provides stability and makes assembly quick and easy. Shelves and other components can be added in minutes with the help of silk-screened RU markings. QER offers integrated cooling and power management options to adapt to the evolving AV environment and features a durable, black powder coat finish.

QER Accessories

Peerless-AV offers a full line of accessories for QER, including side panels, front and rear doors, and internal accessories such as shelves, drawers, power strips and fan panels. Peerless-AV accessories expand the capabilities of your rack system with simple, standardized solutions. Our online rack configurator helps you craft the perfect design for your system.

CFR

CFR racks have a load rating of 12,250lb and feature wider main channels for larger cable bundles, increasing the overall rack width to 24". This rack features fully welded construction with rack depths of 27.5" and 32.5", and available RU heights of 24RU, 37RU, 40RU and 44RU. They can be easily joined together or used as standalone racks. CFR racks include two pairs of fully adjustable mounting channels featuring individually numbered RUs. CFR features two knockout plates in the back of the rack, two ground studs in the caster base, four 1,000lb leg levelers and mounting hardware. CFR racks are available in any of our 10 standard colors and custom colors are available upon request.

FFR Racks

FFR

FFR features fully welded construction. The FFR rack is 19.25" wide and is available in depths of 16" and 18", with RU height options of 8RU, 9RU, 10RU, 11RU, 12RU, 13RU and 14RU. The main rails are #10-32 tapped, creating a space effective design. The FFR utilizes side struts for front-to-rear cable lacing. Anchoring holes are included in the top, bottom and sides for flexible mounting to credenzas, lecterns and similar furniture. Shelves, lacing bars and other accessories are available to expand your rack's capabilities. The FFR features a durable, black powder coat finish.

Color Options

Customize your Rack System

Customizing racks with your logo provides more brand recognition to help increase your visibility to customers. We can screen-print your logo anywhere on your rack or accessory.

To customize your rack, please submit the following information to your sales representative:

- Your logo saved as a vector image (.EPS or .AI)
- Where you would like your logo to be placed
- Size of logo
- Color specifications — we can match your logo color

MEDIUM BLUE (R112)	**SILVER** (R121)	**PEARL GRAY** (R122)	**PEBBLE GRAY** (R123)	**BLACK** (R100)
POTTERY WHITE (R101)	**LIGHT BLUE** (R111)	**LIGHT BEIGE** (R131)	**GUNMETAL** (R124)	**CRANBERRY** (R141)

Note: Colors shown are for representational purposes only.

Drawers

Peerless-AV drawers install easily to provide storage for extra cables, remote controls or media. The lock box installs easily to provide secure, key-accessible storage for your valuable AV accessories.
	Drawers Solid			Drawers Solid with Lock
2RU	ACC-DR2		2RU	ACC-DR2-LK

	Lock Box
3RU	ACC-DR3-LKF
4RU	ACC-DR4-LKF

Shelves

Our light-duty shelves are capable of supporting components up to 50lb, with the exception of the 1RU shelf that holds 15lb. They are designed with vents to keep equipment cool. Hold-down brackets can be ordered separately for previously purchased shelves. Vented shelves with hold-down brackets hold components safely in place.

Our heavy-duty shelves are adjustable from 17" to 40".

	Shelves Retractable			Shelves Solid Front Face

Blanking Panels

Solid blanking panels serve both form and function, filling out empty rack space and directing air where needed. Vented blanking panels allow heat produced by components to dissipate while covering any blank space between components. Formed blanking panels are aluminum and also available individually or in kits.

1RU Fan Stack
Ultra-Quiet Fans with Front Exhaust

Fan stack units provide active cooling for your electronic components within the rack. These units install as easily as a shelf and have a five-foot power cord. Fans turn on from 83°-85° keeping components cool.

	CFM (total)	DB	Voltage	# of Fans	Fan Diameter	Depth
ACC-FS8	120	27	115	2	4.75"	8"
ACC-FS14	120	27	115	2	4.75"	14"

Fan Panel
Ultra-Quiet Fans

Fan panels provide active cooling for your electronic components within the rack. These units install as easily as a blanking panel and have a five-foot power cord. Fans turn on from 83°-85° keeping components cool.

	CFM (total)	DB	Voltage	# of Fans	Fan Diameter	Rack Height
ACC-QF2-2	50	28	115	2	3"	2RU
ACC-QF2-4	100	28	115	4	3"	2RU
ACC-QF3-2	120	27	115	2	4.75"	3RU

Digital Display Fan Panel
Ultra-Quiet Fans with Display

Fan panels with a digital display allow you to set the sensor to a specific temperature range of 58° to a programmable max and have a six-foot power cord. This ensures that your electronic components will operate at peak performance.

	CFM (total)	DB	Voltage	# of Fans	Fan Diameter	Rack Height
ACC-QFD2-2	50	28	115	2	3"	2RU
ACC-QFD2-4	100	28	115	4	3"	2RU
ACC-QFD2-3	120	27	115	2	4.75"	3RU

Power Strips
Power cords are 10 feet long.

	Circuits	NEMA Outlet Type	NEMA Plug Type	Voltage	Number of Outlets

Lacing Bars

Lacing bars are available in packs of five.

Lacing Strips

Vertical cable lacing strips provide mounting support for PDUs and cabling. Horizontal cable lacing strips provide cable management of the side or rear of the frame. Cable lacing strips have a combination of M6 holes for cable ring mounting (HK-CR1) or equipment tie-down, while the slots can accept cable ties, fasteners, etc. Lacing strips are sold individually.

Fine Floor Caster
ACC-C125

Heavy Duty Caster
ACC-C660

Casters

Fine floor casters have a load rating of 120lb each and add 1.25" to overall height. Heavy-duty casters have a load rating of 600lb each and add 2" to overall height.
Joining Kit
ACC-130

Joining Kit

Join racks together using simple #1/4-20 hex and lock nut hardware.

Don't see your accessory? Just ask. We do custom manufacturing.

QER Knock Down Frames

QER was designed to provide safe and secure mounting for all AV equipment while saving the installer valuable time at every job site. QER is available in depths of 20" and 26" with RU heights of 8RU, 14RU, 21RU, 29RU, 37RU and 43RU. The open-frame design provides stability and makes assembly quick and easy. Shelves and other components can be added in minutes with the help of silk-screened RU markings. QER is UL certified to 600lb, assembles in minutes and available in pre-configured kits. QER features a durable, black powder coat finish.

QER Kits

QER kits come equipped with shelves that are ventilated for heat dissipation, keeping your AV components cool and running smoothly. Kits also include a drawer for safe, convenient storage of your extra cables, remote controls or other media. Fine floor casters make moving your rack smooth and simple. The kit comes in both 20" and 26" depths, offers optional horizontal or vertical power strips and ships flat.

Q-K12926

Note: Overall height includes 1" for fine floor casters in kit. For 26" depths, remove "20" and add "26" to the end of the part number. (i.e. Q-K1-4320 becomes Q-K1-4326) For horizontal power remove "K1" add a "K2" in the part number. (i.e. Q-K1-4326 becomes Q-K2-4326) For vertical power, remove "K1" and add "K3" in the part number. (i.e. Q-K1-4326 becomes Q-K3-4326)

Front Trim Strip

The snap-in front trim strip provides a clean, contemporary design aesthetic for any rack by covering up equipment-mounting hardware screws and RU markings. They are available in the same heights as corresponding racks.

Trim Kits

Trim Kits provide a contemporary design aesthetic for QER. Choose from either a curved or flat trim kit that mounts easily to the top and bottom of the rack. (Doors can also be added curved or flat to match the frame aesthetic.)
