# DUAL DISPLAY BACK-TO-BACK CEILING MOUNT SYSTEM

FOR 37"-46" DISPLAYS\*

Two separate displays sitting side-by-side in the front and the back can only mean one thing: a win-win situation. The DST940-BTB from Peerless-AV mounts 2x1 displays back-to-back with exceptional alignment. Installation and adjustment have never been easier because both displays slide horizontally and tilt up to 20 degrees to ensure the message is placed at its ideal viewing angle. This makes the mounting solution perfect for restaurant menu signage, airport flight information displays or entertainment and department store applications.

\*Contact Peerless-AV Customer Care for displays 32"-36" and 47"-50"

*The DST940-BTB aligns two displays on the same plane in the front and the back, providing one continuous mounting surface in each direction.*

## Additional Features

- ✓ A robust design ensures displays are securely attached to the adaptor plate
- ✓ Displays quickly hook onto adaptor plate for fast installation
- ✓ Tilt ranges from 0 to 20°
