

THR-100-COUNTER THR-200-STAND

Max Load
2.64lb (1.2kg)

Temperature Sensor Tabletop and Floor Stand Mounts

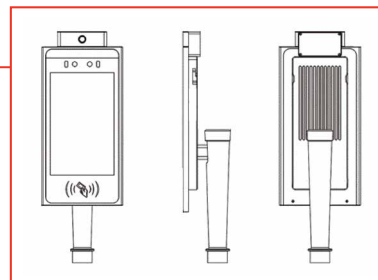

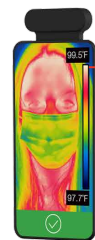

FOR 8" TEMPERATURE SENSOR TABLETS

See *Tablet Compatibility Requirements*

Peerless-AV's lightweight and durable Temperature Sensor Stands are offered for tabletop or floor applications. Both stands offer a plethora of installer friendly features, such as internal cable management and clearance holes in the base to secure the mount to a surface or leave it free-standing for quick reposition. These mounts are designed to support an 8" temperature sensor tablet (see tablet compatibility requirements) to immediately deploy in a variety of settings, such as corporate, retail, hospitality, and education. Once the stand is paired with a self-service, non-contact temperature screening tablet, it will alert individuals of heightened temperature status as they enter the premise, alleviating customer and staff concerns.

- Designed and manufactured in the USA
- Internal cable management creates an aesthetically pleasing appearance
- Socket pin security screws keep the tablet secured within the stand
- Base can be free standing or bolted to the floor to increase security
- Adhesive rubber feet under the base plate help stabilize the stand
- High performance, premium powder coat finish protects the stand and extends the lifespan of the product
- Custom aesthetic options available, including custom color finishes and vinyl wraps

Note: Tablet not included

SUPPORTS 8" TEMPERATURE SENSING TABLET
Tablet not included. Line drawing is reference only.

Important Tablet Compatibility Requirements:

1. Tablet requires manufacturer pre-installed mounting post
2. Mounting post to be no larger than 1.3" diameter
3. Mounting post to have lip that sits above surface of THR pole of no more than 1.73"
4. Mounting post to be threaded on bottom and use locknut no larger than 1.9" in diameter
