* Refers to maximum weight of TV or max. combined weight of TV, VCR and VCR Bracket.

- 1 Use a stud finder to locate stud centers.

- 2 Use wall plate (A) as a template to mark slot centers on stud centers.

Note: Models WSP 430, WSP 430S, WSP 430W, WSP 435, WSP 435S, and WSP 435W can be mounted on both 20" or 16" centers. Models WSP 440, WSP 440S, WSP 440W, WSP 445, WSP 445S, and WSP 445W can be mounted on 24", 20", or 16" centers.

Steps 3 and 4 cover attachment to a metal stud wall. For attachment to a wood stud wall skip to step 5, page 4.

- 3** **FOR METAL STUD WALLS ONLY:** Drill four 1/2" (13 mm) dia. holes through drywall and studs. Insert togglers (D) as shown below...

⚠ WARNING

- Make sure that mounting screws are anchored into the center of the studs. The use of an "edge to edge" stud finder is highly recommended.

- 3-1** Pivot end of toggler.

- 3-2** Push into hole.

- 3-3** Rotate toggler clockwise to wedge it against inside walls of metal stud.

- 3-4** Slide plastic cap forward while pulling back firmly on ring.

- 3-5** Break off excess.

- 4** Attach wall plate (A) with 1/4-20 x 2.5" phillips screws (C), and washers (E).

Four 1/4-20 x 1/2" phillips screws (B), and four washers (E) are provided to attach wall mount bracket (sold separately) to wall plate.

Step 5 covers attachment to a wood stud wall.

- 5** **FOR WOOD STUD WALLS ONLY** drill four 5/32" (4 mm) dia. holes 2 1/2" (65 mm) deep. Attach wall plate (A) using four #14 x 2.5" (6 mm x 65 mm) wood screws (F).

⚠ WARNING

- Tighten wood screws so that wall plate is firmly attached, but do not overtighten. Overtightening can damage the screws, greatly reducing their holding power.
- Never tighten in excess of 80 in • lb (9 N.M.).
- Make sure that mounting screws are anchored into the center of the studs. The use of an "edge to edge" stud finder is highly recommended.

Four 1/4-20 x 1/2" phillips screws (B), and four washers (E) are provided to attach wall mount bracket (sold separately) to wall plate.
