

GB-MBX300/310/320/330 Installation Instructions

The GB-MBX300 Large Equipment Storage GearBox™ provides 17.88" x 13.71" x 5.35" of storage space and can hold freestanding or rack-mountable small form factor PCs and other digital media components. It mounts to a variety of Premier Mounts' adapters (sold separately) using it's variety of mounting patterns. The GB-MBX310 comes complete with a PSD-SPA, the GB-MBX320 includes a PSP-SPA and the GB-MBX330 is designed to be mounted to the back of an ECM flat-panel ceiling mount.

Step 1

The GB-MBX300 may be used with a variety of Premier Mounts installation adaptors, such as PSD-SPA, PSP-SPA, etc. Complete with rack mount rails 3RU high, integrated cable bushing, lockable door and optional air fan installation, the GB-MBX300 is perfect for storing valuable digital media components.

Which version of the GB-MBX300 are you installing?

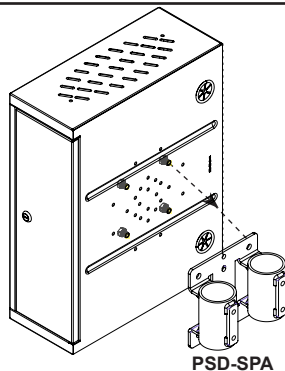

For **GB-MBX310**, to dual pole cart/stand installation skip to **step 2**.

For **GB-MBX320**, to single pole cart/stand installation skip to **step 3**.

For **GB-MBX330**, to ECM ceiling mount installation skip to **step 4**.

Step 2

- 1) Your order should have come in two boxes. Remove the PSD-SPA from the second box.
- 2) Locate the 4½" bolt pattern on the back of the GearBox™, which is highlighted in the drawing to the right.
- 3) Install the PSD-SPA to the GB-MBX310 using the manual provided with the PSD-SPA.

PSD-SPA

The (4) hex bolts included with the PSD-SPA should be installed from within the GB-MBX310 and come out to meet the adaptor.
