

# Heavy Duty False Ceiling Plate with 125 lb. Weight Capacity

Model: **PP-HDFCP**

Weight Capacity: 125 lb / 56.8 kg.

## Features

- 1** Mounts projectors or flat panels from a suspended/false ceiling
  - 2** Use with the included 25' steel braided cables (x4) to suspend from drop ceilings of any height
  - 3** Includes escutcheon ring cutter and beauty ring for easy installation and a more aesthetic final presentation
- Includes hardware for secure installations using the steel braided cables, and cable grippers for secure and easy installations to ceiling truss or purlins, as well as concrete and wood surfaces

The PP-HDFCP Heavy Duty False Ceiling Plate is a ceiling adapter that can be used to mount projectors or flat panels from a suspended/false ceiling, and is designed to provide installation time savings of 62.5% when compared to traditional mounting methods. This ROI-maximizing solution allows projectors or flat panel displays up to 125 lb. to be ceiling mounted using the included (x4) 25-foot steel braided cables, replacing the unistrut and pipe mounting method where pre-installation site walks are required. The PP-HDFCP is designed to be hidden above an existing ceiling tile within the T-bar ceiling frame.
