

PROLIGHT™

PROLIGHT™ SLIM SERIES EXTREME - 150W, 220W, 300W

The newest addition to the ProBuilt floodlight category are the Slim Series Extreme! With three high wattages of 150w, 220w and 300w, these lights are energy efficient and have a high-output of Lumens topping out at 37,000! Due to the extreme slim design and the cool operation these lights can be used in confined spaces. The new lights are also designed for permanent installation or long-term temporary use outdoors. The ProLight™ Slim Series Extreme can keep the job site safe and bright while drawing minimal amps, providing the ultimate energy savings. Tested and rated to the highest standards, the ProLight™ Slim Series Extreme is cUL listed for wet locations and has an IP65 rated housing. Developed for the professional tradesman, the aluminum and steel construction make the ProLight™ Slim Series Extreme durable enough for the harshest conditions.
